Notes of superscripts:

¹For all categories other than Domestic, fixed/demand charges are to be levied on sanctioned load or MDI reading, whichever is higher, on per kW or part thereof basis. Where the MDI reading exceeds sanctioned load, a surcharge of 30% shall be levied on the fixed/demand charges corresponding to excess demand in kW for such billing cycle only.

²In case of co-operative group housing societies having independent connection for common facilities through separate meter, energy charges shall be billed at highest slab tariff for domestic category, rebate of 15% in energy charges is admissible on notified tariff.

³Rebate of 15% in energy charges is admissible on notified tariff.

⁴Additional rebate of 2.5% on the energy charges on 11 kV rates for availing supply at 33/66 kV and 4% for supply at 220 kV shall be admissible.

⁵Tariffs for northern railways traction are based on the supply being given through a single delivery and metering point at a single voltage. An additional capacity blockage charges are also applicable to be calculated as $Rs\ 1260 \times (2.97A + 5)$ where A is contract maximum demand, whichever is higher, in MVA subject to a minimum of Rs 25000.

⁶From the date of payment of their payable share in full towards electrification cost. Normal tariff available after one year.
