

# LIGHTING LIVES

- Delhi has near 24x7 power supply - a dream in other parts of the country
- The per capita consumption of electricity in Delhi at 1265 units is the highest in the country as compared to the national average of 606 units
- Delhi has one of the lowest power tariffs in the country.
- Delhi discoms have reduced the AT&C losses from a high of over 63% in 2002 to around 20% in 2010 - a world record.
- That is our humble contribution towards making the lives of Delhiites better, comfortable and **en**-lightened.
