

The month of July saw a lot of CSR action on the health and environment fronts. Apart from eye care and blood donation camps, community workshops on energy conservation and trees plantation were also undertaken.

### Putting green-foot forward: 2200 trees planted

BRPL cares for the environment and like Delhi's residents; it too is concerned about the incidence of growing pollution. Doing its bit, BRPL routinely plants trees in its licensed area. Our goal should be to plant trees and spread the awareness on healthy environment. Keeping this in mind, 1700 trees were planted in Government schools in Nangloi, Peeragarhi and Bakkarwala. Another, 500 trees were planted at the Gram Sabha, Mundka.

### Community workshops sensitise 450 school children on Energy Conservation

BSES' relentless pursuit of its mission for sustainable growth encompasses its entire eco system. In quest of this objective, BSES in partnership with its NGO partner organised community 10 workshops in six schools of Nangloi, Peeragardhi and Bakarwala. During these sessions, experts interacted with the students on "how to conserve electricity" and effects on the environment. A total of around 450 beneficiaries attended these sessions.

### Seventy Five donate blood for humanity

Safe blood saves millions of lives each year. Playing our role as responsible Corporate Citizens and to pay homage to Shri Dhirubhai H Ambani, BRPL organised three blood donation camps – one each in Najafgarh, Janakpur and Nehru Place in an association with the Indian Red Cross Society. Seventy Five employees (and consumers) donated blood.

### Eye Care Camps

During the month, three eye care camps were organised in the Najafgarh and Jaffarpur divisions in association with our NGO partner, I-Care Hospital. Over 700 residents' visited the OPD. After examination, over 440 glasses were distributed.
