

SPARSH

...enlightening lives

In the unprecedented global response against Covid 19, apart from the doctors, nurses and the medical staff, there are also other essential services, which are critical to these efforts. One such critical service is that of electricity distribution. It is not only powering these efforts, but also the lives of millions of residents, enabling them to carry-on with their lives.

Apart from supplying reliable power supply to all consumers, including hospitals, labs and vaccination centres, Reliance Infrastructure led BSES Rajdhani Power Limited is complimenting the efforts of the authorities. BRPL's CSR programs have been playing their part in the fight against Covid and making a positive impact in the lives of the needy under its 'Sparsh' initiative.

BRPL donates Oxygen Concentrators

In anticipation of the third wave of Covid-19, the authorities have been taking several measures to ramp-up the Oxygen supply in the national capital, including setting-up of Oxygen banks. Doing its bit for the cause, Reliance Infrastructure led BRPL has contributed around 400 Oxygen potable Concentrators to the government authorities for the benefits of the needy.

Putting green-foot forward: 7000 trees planted in June

Reliance Infrastructure led BSES Rajdhani Power Limited cares for the environment and like Delhi's residents; it too is concerned about the incidence of growing pollution. Doing its bit, BRPL routinely plants trees in its licensed area. In July, we restarted our annual tree plantation drive. In the mega drive, BRPL, in partnership with CRPF and the Delhi Police, planted thousands of trees at the CRPF Camp, Jharonda Kalan, and at several Police stations. Apart from this, trees were also planted at the Delhi Government schools in South and West Delhi. These locations were carefully chosen to ensure their regular watering and high survivability of the planted samplings. A total of around 7,000 trees were planted in June.

CSR Trivia

- Positively impacted the lives of over 6.5 lakh beneficiaries (~ 2 lakh in FY 2020-21)

Discoms help power govt's O₂ fight

TIMES NEWS NETWORK

New Delhi: Delhi government has been taking several measures, including ramping up oxygen supply to the capital and setting up oxygen banks in anticipation of a third wave of Covid-19 cases. Power discoms of BSES on Friday said that they were doing their bit for the cause and had contributed 650 portable oxygen concentrators to the government.

"This is not the only targeted Covid-related initiative that BSES discoms have undertaken in partnership with the authorities. Earlier, fully equipped ambulances have also been provided to support the city's health machinery," a BSES spokesperson said.

BSES discoms had handed-over around 850 e-tablets for the use of government school students, the spokesperson added. "These tablets will further facilitate the needy students to

HELPING HAND: For the past few months, the discoms have also been providing dry food rations, hygiene kits and masks to the needy

get better access to online education," he said, adding that 100 automatic sanitiser-thermal temperature scanner machines along with the sanitising liquid have also been installed at police stations, mohalla clinics and select public places.

"Apart from supplying reliable power supply to all consumers, including hospitals, labs

and vaccination centres, Delhi discoms are also lending a helping hand to the needy during these unprecedented Covid times," he said.

He said that BSES discoms have been providing dry food rations, hygiene kits and masks to the needy. Apart from that, over two lakh gloves, three lakh masks, 20,000 hygiene kits and 7,500 PPE kits have been provi-

ded in the last few months.

The spokesperson said that the government and the authorities were doing a lot in the fight against Covid-19, but these efforts had to be supplemented by the resources of the corporate sector. "BSES CSR programmes are doing their bit," he said.

He said that since the onset of the Covid, the discoms' CSR programmes have evolved, adapting to the new normal under their 'Sparsh' and 'Suraksha' initiatives. "For maximizing the benefits to the intended beneficiaries, the CSR programs are working in close coordination with the authorities to identify the need gaps and implement the possible solutions," he said.

In anticipation of schools opening in the weeks and months ahead, BSES has been renovating toilets in schools and over 200 toilets have been renovated in 100-odd schools over the past few months, he said.
