

## BRPL recognised as the 'Best Performing Power Distribution Utility'

BRPL has received the CBIP Award 2022 for the 'Best Performing Power Distribution Utility' in the private sector. Hon'ble Union Minister for Power, New & Renewable Energy, Mr R K Singh, presented the award to Mr Amal Sinha, Director & Group CEO BSES, and Mr Vineet Sikka, CEO BRPL.

The discom received the award based on several criteria, including financial performance, T&D loss reduction, DT failure rate, network capacity addition, consumer metering, distribution reliability, capacity building through training, safety, CSR, HR, and Green power integration.

## Keep Your Cool and Wallet Happy: Smart AC Strategies for Summers

Air conditioning can make up a significant portion, between 30 to 50 percent, of a household or company's yearly energy expenses. By following straightforward and easy-to-implement tips, you can considerably lower your electricity bill.

- Set your AC thermostat at 24°C for comfortable and cost-effective cooling.
- Keep air-conditioned room doors closed as much as possible to retain cool air.
- Clean your AC filter every month for efficient functioning.
- Use ceiling fans alongside the AC to circulate air and reduce the AC's workload.
- Line windows and walls with plants and curtains to block sunlight and insulate the room from heat.
- Turn off the AC when leaving the room or house for extended periods to reduce energy consumption.
- Cool roofs, like painting them white or installing white tiles, can significantly reduce air conditioning costs.
- Check electric appliances' energy rating before buying them; higher ratings result in higher savings.
