Delhiites give thumbs up to power privatisation

Yet another survey has given Delhi power privatization the thumbs up. This time it is the Businessworld - Synovate Urban Infrastructure Survey 2010 - whose findings have been mentioned in the 23 August 2010 issue of the Businessworld magazine.

Businessworld

Government Private companies Don't know, cannot say (OK/CS)

An overwhelming 62% of the Delhi respondents from SEC A and SEC A plus segments - in this multi-city survey - want private companies to control power distribution. Delhi is followed by Kolkata at 53%.

BSES would like to take this opportunity to thank each and every of its 26 lakh consumers for reposing this faith, trust and confidence in its ability to offer them world class services. We assure you that we will continue to stand-firm in our commitment in meeting your aspirations.

Now you have "Suvidhaa" of paying electricity bills at over 1200 neighbourhood stores

Now you have the "Suvidhaa" of paying your electricity bills at a neighbourhood Kirana Store. Just look out for this **Suvidhaa** to pay your electricity bills at any of the 1200 Suvidhaa "empowered" Kirana store across Delhi & NCR. Customers will

have an option of paying their electricity bills through both cash (upto Rs 4,000) and cheque/DD as Suvidhaa stores are connected with the BSES server - online. you will get an instant acknowledgement of your payment.

BSES all set to power the CWG

As Delhi gets ready to host the 19th Commonwealth Games, BSES has geared up to play its role as the host discom. BSES has completed projects of around Rs 74 crore (BRPL 34, BYPL 40) for creating and strengthening the power infrastructure at all the 12 venues, including the J L Nehru Stadium and the Commonwealth Games Village, by installing new Panels, Feeders and Cables.

BSES discoms have also made multi-pronged fool-proof arrangements at the CWG Venues to ensure 100% power supply. Some of them include:

- Complete network from 66/33 KV downwards to 11KV is being constantly scanned and monitored for predictive failure. All CWG venues in BSES' area have 'double source' power supply from different Grid stations.
- A Disaster Management Group has been constituted to secure important BSES locations - like the Grid Stations and SCADA - catering to the Games venues.
- Quick Reaction Teams (QRTs) - A brand-new fleet of Operations and Maintenance vehicles, manned by highly trained engineers, will be stationed near the Games venues and will be in constant touch with BSES' SCADA Centres.
