

March is a busy month for most departments in BSES. CSR is no exception. During the month, besides the on-going initiatives like Adult Literacy Program, Eye Camps and Self Defence Training for girls; Cancer Detection Camps and Electrician Trainings were also organised. Vocational Training Centres were also opened in West Delhi.

## A snapshot: Total Beneficiaries and People Positively Impacted (2015-2016): Over 85000 (and counting)

- Energy Program: Over 50000
- Sanitation Drive (40 schools): Over 20000
- Eye /Medical Camps: Over 7500
- Adult Literacy program (for women): Over 6000
- Self Defence Training (for girls): Over 1100
- Cancer Detection Camps: Around 350
- Electrician Training: 325

### Cancer Detection Camps

Four free Cancer Detection camps were organised in association with PHD family Welfare Foundation in remote area of Nazafgarh, Jaffarpur, Mundka and Khayla. Over 380 residents and villagers were examined.

### Vocational Training Centres for Women

To equip young women with vocational skills for gaining meaningful employment in identified areas of Mundka, Nangloi, Najafgarh and Jafarpur, BRPL started four vocational centres in association with a NGO. These centres will impart trainings on various disciplines including Computers (Basic and Advanced), Beauty Culture and Tailoring.

### Ongoing Activities – Update

**Bill Distribution in JJ Clusters** - Women from BRPL' Adult Literacy Centres are helping the discom distribute electricity bills and collect arrears from defaulters in the JJ Clusters of Tagore Garden and Nangloi.

**Self Defence Training** - Self Defence trainings were organised in 4 West Delhi schools. Over 260 girls underwent these trainings. Certificates and school bags were also distributed to these students.

### Electrician Training Program

Two training programs were organised by the Customer Care Department in Safdurjung Enclave and Vikaspuri to train electricians, especially those nominated by RWAs. Over 325 electricians were trained on various issues relating to internal house wiring, electrical safety, prevention of short circuits and electrical fires, importance of installing Earth Leakage Circuit Breakers (ELCB's) and its various functions.

**Eye Camps** - Two eye care camps were organised in association with ICare Hospital
