

THE MAHATMA CONTINUES TO INSPIRE US!

BSES pays tribute to Mahatma Gandhi, the father of this great nation on his 150th birth anniversary. His teachings are as relevant today, as they were then. We at BSES imbibe them in our daily lives.

"A customer is the most important visitor on our premises. He is not dependent on us. We are dependent on him. He is not an interruption of our work. He is the purpose of it. He is not an outsider of our business. He is part of it. We are not doing him a favour by serving him. He is doing us a favour by giving us the opportunity to do so."

BYPL has bagged another National Award in the field of Energy Management. BYPL has been awarded as "Excellent Energy Efficiency Units" in a function organised by CII's 'National Award for Excellence in Energy Management, 2019' held along with Energy Efficiency Summit in Hyderabad on 18th September 2019.

Advisory related to Electricity meters issued in public interest

Your electricity meter is safe, but remember, it is complex device. Therefore, some precautions related to electricity meters are a must. You can keep you and your family safe by implementing on the advisory issued by BSES in public interest:

- No electrical or mechanical equipment should be installed near the electricity meters/installations.
- The place where meter is installed should be clean and kept free from any garbage, inflammable material or debris for safety and ease of access.
- Avoid parking vehicles near electricity meter or any electrical installation which can make the area unsafe as the fuel in the vehicle would aggravate fire. Also, these installations should be kept free from any encroachment.
- Consumer should take care for ensuring that areas where meters are installed should be kept properly ventilated, free from contaminants and exhausts gases from any process which might lead to conditions causing fire incident.
