

Hon'ble Deputy Chief Minister Inaugurates Smart EV Public Charging Station

In line with the commitment towards building a robust electric mobility ecosystem, BSES Yamuna Power Limited (BYPL) and EV Motors India Pvt. Ltd. (EVM) have partnered to set-up smart charging stations in East and Central Delhi.

As part of this endeavour, the first smart public charging station under this partnership was inaugurated at Patparganj by Delhi's Hon'ble Deputy Chief Minister, Shri Manish Sisodia. The entire event was conducted while adhering to all the safety protocols and maintaining social distancing. BSES Director Sh. VS Verma, BYPL CEO Sh. PR Kumar and EV Motors Managing Director Sh Vinit Bansal Kumar were also present on the occasion.

The electric cars can be charged between 45 and 90 minutes at this EV charging station branded as 'PlugNgo'. 15 to 18 cars can be charged here per day. The running cost of an electric vehicle would be between Rs 1.25 to Rs 1.50 cost per km.

Be wary of impostors!

We urge our consumers to be wary of imposters, fraudsters, cheats and unscrupulous elements claiming to be from BSES. Consumers are advised to verify their identities and not get intimidated or induced by their threats and false assurances and not give them any money - whatever be the reason.

Stay Safe; avoid flying kites near electric installations

Kite flying is an integral part of the Independence Day celebrations in India. Sometimes this otherwise innocuous activity can be hazardous, even fatal at times. The wide-spread use of metal coated manjha – being a good conductor of electricity – poses a great danger not only to the person flying the kite, but also poses a risk to the electricity supply of an area.

- Metal coated manjha can lead to trippings and even electrocution
- Tripping of just one 33/66 KV overhead line can disrupt power supply to over 10,000 residents of an area and tripping of a single 11 KV line to over 2500 residents

BYPL bags the coveted Golden Peacock Award

BSES Yamuna Power Limited has been awarded the coveted 'Golden Peacock Innovative Product/Service Award' for the year 2020 in the power sector. It was presented in an online ceremony for its innovative 'Grid connected Smart Energy Storage System with Solar Rooftop: Micro grid'.

BYPL launches AC Replacement Scheme with a discount of upto 64%*

As part of its continuous efforts to promote energy efficiency, BYPL has launched an AC Replacement Scheme. Under the scheme, old & energy guzzling ACs can be replaced with new BEE 5 Star rated energy efficient ones at heavily discounted prices.

For the purpose, BYPL has partnered with leading air conditioner brands like Daikin, Godrej, Hitachi, LG and Voltas to provide the consumers a variety of options at substantial discounts of upto 64%.
