

BYPL recognised as a top performer

BYPL has been recognised as a top performer under BEE's PAT-II Cycle (2016-19) scheme. The Hon'ble Union Minister of Power, New and Renewable Energy, Shri R K Singh, presented the prestigious award to the discom. BYPL CEO Amarjeet Singh and the Head of Business, Brajesh Kumar, accepted the award on the organization's behalf at an event held on the eve of BEE's 21st annual day. Under the PAT (Perform, Achieve, Trade) scheme, the discom exceeded the assigned energy savings targets by 250%.

Keep Your Cool and Wallet Happy: Smart AC Strategies for Summers

Air conditioning can make up a significant portion, between 30 to 50 percent, of a household or company's yearly energy expenses. By following straightforward and easy-to-implement tips, you can considerably lower your electricity bill.

- Set your AC thermostat at 25°C for comfortable and cost-effective cooling.
- Keep air-conditioned room doors closed as much as possible to retain cool air.
- Clean your AC filter every month for efficient functioning.
- Use ceiling fans alongside the AC to circulate air and reduce the AC's workload.
- Line windows and walls with plants and curtains to block sunlight and insulate the room from heat.
- Turn off the AC when leaving the room or house for extended periods to reduce energy consumption
- Cool roofs, like painting them white or installing white tiles, can significantly reduce air conditioning costs.
- Check electric appliances' energy rating before buying them; higher ratings result in higher savings.
