

Safety Alert:

Maintain distance from electrical installations for your own safety

Large scale construction activity is taking place in Delhi. Many of these dwellings and unauthorized constructions / extensions – built in various colonies have come underneath and dangerously close to discom' existing overhead Low Voltage (LV), High Voltage (HV) and Extra High Voltage (EHV) lines and electricity installations. These are in complete violation of regulations 60 and 61 of the Central Electricity Authority (Measure relating to Safety and Electric Supply) Regulations, 2010 (as amended from time to time), and related provisions of the Electricity Act, 2003 (Section 53 and 68 (5) read with Section 161).

Building extensions, structures, projections, balconies, chajjas or boundary walls etc must maintain a minimum vertical and horizontal distance from the electricity mains and electricity installations, as stipulated in the regulations.

Lines / Installations	Minimum vertical clearance where line is passing above a building / structure / balcony etc.	Minimum horizontal clearance where line is passing adjacent to a building / structure / balcony etc.
Lines of voltage upto 650 Volts	2.5 metres from the highest point	1.2 metres from the nearest point
High Voltage line exceeding 650 Volts up to and including 11000 Volts	3.7 metres from the highest point	1.2 metres from the nearest point
High Voltage line exceeding 11000 Volts and up to and including 33000 Volts	3.7 metres from the highest point	2 metres from the nearest point
Extra High Voltage line exceeding 33 KV	3.7 metres (Plus 0.30 metres. for every additional 33000 Volts or parts thereof)	2 metres (Plus 0.30 metres. for every additional 33 KV or part thereof)

These rules have been framed for your safety, to avoid any mishap, fatal accidents and power disruptions.

BSES once again appeals to the owners of such unauthorized constructions to immediately remove their illegal and unauthorised constructions from near the electricity mains and installations. Violators of the stipulated regulations will be held personally responsible for any direct or indirect loss (life, property etc) and liable for prosecution as per applicable laws.

Partner BSES to accelerate the EV revolution

Now you can get an EV charging station installed at your home and semi-public places like shops, clubs, RWA offices etc through a hassle-free single window system and Discom empanelled vendors. That's not all! You can also be eligible for an attractive government subsidy* under the Delhi EV policy.

Benefits for a consumer:

- Lowest prices
- Subsidy under Delhi EV policy
- Single window platform
- Convenient payment plans
 - o Upfront (Capex) payment
 - o Subscription plan (36-months)

Easy to apply. For more details, please call 19122

Here's an electrifying offer!

Pay your electricity bill of ₹100 or more with Paytm

Use Code: **BSES200**
