

3. Eligibility Requirements for Consortium

Members of the Consortium shall enter into a binding Consortium Agreement, in the form specified at Form 8 (the “Consortium Agreement”) given in Section 8 of RFP Document, for the purpose of submitting Bid. The Consortium Agreement, to be submitted along with the Bid, shall, inter alia:

- (a) convey the intent to comply with the terms and conditions of the AMISP Contract in the event selected to undertake the Project; and
- (b) clearly outline the proposed roles and responsibilities, if any, of each

Every Consortium Member shall provide consent to the Lead Consortium Member and make itself aware of all the proceedings of the bidding process and Project implementation through legally enforceable Consortium Agreement, power of attorneys, legal undertakings, etc. (if applicable) entered amongst all members of that Bidding Consortium including but not limited to those as prescribed in Form 8, Form 9 and Form 11 given in Section 8. In the absence of duly executed formats, the Bid shall not be considered for evaluation and shall be rejected.

The Lead Consortium Member shall be liable for the execution of the entire obligation in the AMISP Contract in accordance with the terms and conditions thereof. Only the Lead Consortium Member shall have the authority to conduct all businesses for and on behalf of the Consortium during the bidding process.

The Bidder, individual entity incase participating in the bidding as Sole Bidder, or as a Consortium Member or as Lead Consortium Member in case participating in the bidding as Bidding Consortium, and its Sub-Contractor(s) should not be blacklisted by any Govt. Organization or regulatory agencies or Govt. Undertaking as on the date of submission of the Bid. Bidder should submit a self- undertaking signed by its authorized signatories for the same as per the format prescribed in Form 7 given in Section 8.

The Lead Consortium Member/ Sole Bidder shall submit the Bid after submitting the Tender Fees and Bid Security as per the various terms, schedules and formats prescribed in this RFP. Further, The Lead Consortium Member shall be the point of contact for the Consortium during the Bid process before award of the Project to the AMISP, and BYPL shall communicate directly to the contact person appointed through the Power of Attorney as per Form 10 given in Section 8.

The Bidder may seek qualification on the basis of technical and financial capability of its Parent(s) and/ or its Affiliate(s) as defined in section 1 for the purpose of meeting the qualification requirements. The technical and financial capability of a particular entity, including its Parent(s) and/or Affiliate(s), shall not be used by more than one Bidder.

“Engagement of Service Provider for Implementation and Operation of Advance Metering Infrastructure (AMI) System under BSES YAMUNA POWER LIMITED, NEW DELHI”

The determination of the relationship of Parent(s) and/or Affiliate(s) with the Bidder shall be on the date 7 (seven) Days prior to the Bid Submission Deadline. Documentary evidence to establish such relationship shall be furnished by the Bidder along with the Technical Bid.

The Technically Evaluated Entity may be the SoleBidder or the Lead Member of a Consortium or an Affiliate or Parent of such SoleBidder or the Lead Member, as the case may be.

The Qualified Bidder(s) will be required to continue to maintain compliance with the Qualification Requirements throughout the bidding process and till execution of the AMISP Contract. Where the Technically Evaluated Entity and/or the Financially Evaluated Entity is not the SoleBidder or a Member in a Bidding Consortium, as the case may be, theSoleBidder or Member shall continue to be an Affiliate of the Technically Evaluated Entity and/or Financially Evaluated Entity till the execution of the AMISP Contract. Failure to comply with the aforesaid provisions shall make the Bid liable for rejection at any stage.

4.4 Technical/Experience Qualification Requirements for IT Implementation/ Product OEM and Services

4.4.1 System Integration / IT Implementation Experience (T1)

SL No	Requirement	Criteria	Document to be provided
1.	The IT implementing agency should have experience of implementing IT applications / AMI Systems / Utility IT Modules on Cloud / on premise.	The Bidder(s) should have managed or deployed AMI/ IT Solution /Applications Comprising of Application Hosting on Cloud / on premise to at least 2 clients During last Five Financial Years.	Copy of Client certificate / work order/ completion certificate or extract from the contract mentioning the scope of work National/ international Utility/DISCOMs to submit PO Copies/ UAT/Commissioning certificates issued to its implementing partners

4.4.2 Experience & Pre- Qualification for Telecommunication SP (T2)

SL No	Telecom	Requirement	Document to be provided
1.	Experience of providing Cellular services (4G/ NB IoT)	Telecom service provider should have valid license given by Department of	Valid UASL License for Telecom Services for projectarea.

“Engagement of Service Provider for Implementation and Operation of Advance Metering Infrastructure (AMI) System under BSES YAMUNA POWER LIMITED, NEW DELHI”

		Telecommunications (DoT), Government of India, for providing 4G/ NB LTE or NB IoT	
2.	Experience of network installation/ maintenance services	TSP should have presence in all the telecom circles across Project area.	Incorporation Certificate along with Memorandum & Articles of Association

4.4.3 Experience & Pre- Qualification for engaged HES Product (T3)

SL No	HES Product	Requirement	Document to be provided
1.	HES software	The proposed HES software should be deployed for cumulatively 1 Million Smart Meters (Gas/Water/Electricity) and should be in successful operation.	Purchase Order with Completion Certificate/ GO Live Certificate from client. Client certificate with contact details mentioning supply, date of handing over and successful operation of Head End system. Customer reserves the right to contact/visit such client during evaluation of this tender.
2.	Deployed Experience	HES should be in successful operation with Cellular/RF/PLC based Smart meters with atleast one project with having 50,000 Cellular meters connected on point to point-to-point Communication.	Purchase Order with Completion Certificate/ GO Live Certificate from client. Client certificate with contact details mentioning supply, date of handing over and successful operation of Head End system.

4.4.4 Experience & Pre- Qualification for engaged MDMS Product (T4)

SL No	MDMS Product	Requirement	Document to be provided
1.	MDMS software	The proposed MDMS software should be in successful operation for cumulative installed base of 2 Million Smart Meters (Gas/Water/Electricity).	Purchase Order with Completion Certificate/ GO Live Certificate from client. Client certificate with contact details mentioning supply, date of handing over and successful operation of MDM system. Customer reserves the right to contact/visit such client during evaluation of this tender.
2.	MDMS Deployment	The proposed MDMS OEM product should have been deployed in projects where it has been integrated with HES and Utility	Purchase Order with Completion Certificate/ GO Live Certificate from client. Client certificate with contact details mentioning supply, date of handing over and

“Engagement of Service Provider for Implementation and Operation of Advance Metering Infrastructure (AMI) System under BSES YAMUNA POWER LIMITED, NEW DELHI”

		Billing systems in operational phase for minimum six months. Necessary certificate from OEM establishing the integrated solution shall be submitted.	successful operation of Head End system. Customer reserves the right to contact/visit such client during evaluation of this tender.
3.	Interfacing with billing system	The MDMS should have been successfully integrated with leading billing system including with SAP Billing System.	Work order with completion certificate

4.4.5 Experience & Pre- Qualification for engaged Smart Pre-Paid Billing Module Product (T5)

SL No.	Product	Requirement	Documents to be submitted
Technical Eligibility Criteria for Smart Pre Paid Module			
1.	Prepaid Module	The offered Pre Paid Module as a solution/services as required in the scope of work, should have been deployed and in operation in utilities or Enterprise working in power sector or Enterprise providing such services to a power utility in India/Global during last 5 years.	Copy of the order and / or Certificate of completion of the work. The Bidder should also furnish user acceptance report. List of clients, individual Client’s PO /WO / LOI / LOA/Contract /Certification on client letterhead and Performance certificate and contact details of clients as proof provided for the integration.
2.	Prepaid Deployment	The Pre Paid solution must be handling interval billing data for at least 250,000 smart meters in prepaid mode in any Utility in India/Global.	Copy of the order and / or Certificate of completion of the work, reference letter from authorized signatory. The Bidder should also furnish user acceptance report.
3.	Prepaid Integration	The proposed OEM product should have been deployed and integrated with HES /MDMS and / or Billing/CIS OEMs	Copy of the order and / or Certificate of completion of the work, reference letter from authorized signatory. The Bidder should also furnish user acceptance report.

4.4.6 Experience & Pre- Qualification for engaged Cloud Service Provider

SL	Cloud Product	Requirement	Document to be provided
1.	Compliance	Service provider shall propose a	1. Cloud Service Provider should

“Engagement of Service Provider for Implementation and Operation of Advance Metering Infrastructure (AMI) System under BSES YAMUNA POWER LIMITED, NEW DELHI”

		Cloud Service Provider (CSP) empaneled with MeitY.	provide a self-signed certificate by authorized signatory on its letter head for compliance of all the guidelines laid down by MeitY.
2.	Certification	The Data Centers should conform to atleast Tier III standard, preferably certified under TIA 942 or UptimeInstitute certifications. Cloud Hosting Provider should be ISO27001, ISO 20000:1 certified.	Copy of certificates
3.	Projects Experience	CSP/MSP must have experience of provisioning Infrastructure / Platform or Software as a Service (IaaS/PaaS/SaaS) on their Cloud for at least 3 clients from Private/PSU/Central Govt./ State Govt / Utility or any other Organization or agencies in India.	Copy of Client certificate, work order, completion certificate or extract from the contract mentioning the scope of work
4.	Technical Capability	The Data Center Facility must be within India, should be currently operational and have with minimum capacity of 100 Racks. CSP/MSP should have experience in implementing and managing Virtualized Cluster based solution(IaaS/PaaS/SaaS/PaaS cloud) in any organization of comparable nature and complexity (more than 500 virtual machines or storage of 1PB or more) of the projects.	Cloud Service Provider should provide a self-signed certificate on their letter head from authorized signatory

- Power Utilities/ Distribution Licensees can use financial and technical qualifications of their parent / affiliate / subsidiaries / associate companies in India / Abroad.
- The Bidders using Parental Credentials need to submit ‘Undertaking from CEO/ Designated official with POA of the company/bidder, duly declaring/confirming surety for the credentials documents of the parent company.
- For credentials which are under non sharing NDAs, Bidder (s) may provide self certification signed by authorized signatory. BYPL reserves the right to contact client to ascertain authenticity.
