

BYPL partners with Finland: Consumers to get world class services

To provide world class services to its consumers, BYPL is looking beyond the national borders for infusing cutting-edge technology, conducting research and knowledge sharing.

As part of these efforts, BYPL has signed a far reaching MoU with 'Business Finland', an organisation fully owned by the Government of Finland. The 3 year MoU on 'cooperation in the power distribution sector' was signed by Mr P R Kumar (CEO, BYPL) and Mr Jukka Hollapa (PhD, Commercial Councillor and Head 'Business Finland' India) at the Embassy of Finland, New Delhi.

Not only will this partnership improve the services of over 16 lakh consumers residing in East and Central Delhi, but will also help the entire power sector.

Online Payment Scheme: Consumers won LED TV, AC

BYPL had launched an "Online Payment Scheme" for its consumers in March, 2018.

The consumers who paid their electricity bills up to 31st March, 2018

through online payment modes, were eligible to win attractive prizes under the scheme. A lucky draw was conducted for the eligible consumers on 25th April, 2018 in the presence of representatives of various Resident Welfare Associations.

The prize distribution for all the 28 winners was held on 2nd May, 2018 at BYPL headquarters Shakti Kiran Building, Karkardooma, wherein the winners were given following prizes: LED TV, Air Conditioner, Washing Machine, Microwave oven, Induction Cooker, Ceiling fan, etc.

Follow simple tips to stay safe during the rainy season

Much to everyone's delight, Monsoons are here again! With them, Monsoon also brings with itself, its own set of unique problems and issues. Due to water-logging, chances of electricity related mishaps and incidents are especially high during the monsoon season. Simple precautions will help you stay safe and go a long way in ensuring incident free monsoons.

- Stay away from all electrical installations like electricity poles, sub-stations, transformers, streetlights etc
- Caution children not to play near them, even if they are barricaded.
- Do not touch electrical appliances with wet hands
- Keep a "Tester" at home. If a switch or a wall of your house is wet, do not touch it. First use the "tester" to check if there is an electricity leakage. If the need be, call your electrician.
