

Register for free SMS Alerts and 'Bill on Email' and win prizes in Lucky Draw

Are you getting free SMS alerts from BYPL on the payment due date or payment confirmation? Or getting e-bills in your mail box? If not, please get your mobile number, email ID and CA number registered with us. You will get these along with many more useful alerts.

Easy to Register: • Call BYPL' 24x7 helpline number 399-99-808 or • Email bypl.customercare@reliancecda.com

By registering your mobile number, email ID and CA number with us, you will also get a chance to win prizes through Lucky Draw.

Proper wiring helps you stay safe!

Faulty internal wiring, besides being a serious safety hazard can also play havoc with your electricity consumption. Follow these simple do's and don'ts and enjoy years of trouble free living:

- Check your Electronic Meter's EL LED indicator. Glowing EL LED indicates the following (i) Earth is being used as neutral; (ii) Neutral wire is touching the earth wire; (iii) Phase/ Neutral wire is mixed with a neighbours phase / neutral wire.
- Incorrect house wiring may affect electrical safety and can cause fire and mishaps.
- As per Indian Electricity Act, 1956, ensure all electrical work, including addition, alteration and adjustment is undertaken only by qualified and certified electrical contractors.
- Install an Earth Leakage Circuit Breaker (ELCB). This simple yet very useful device detects Earth Leakage in your house and thereby preventing major mishaps.
- Each independently metered consumer load must be directly connected to the distributing mains, only through its respective meter. If you have more than one meter installed in your building, get a qualified electrician to check that the wiring in the building is segregated.

84 convicted for power-theft + 45 get Jail + Penalized Rs 5.6 crore in fine

In the last 18 months, 84 power thieves, cutting across the social strata and areas have been convicted by the Special Courts of Electricity in Karkardooma, Tis Hazari, Dwarka and Saket.

Those convicted include Industrialists, Businessmen, owners of a Bottling plant, Welding works unit, Factory, Tailor, Shopkeeper, Gowdown and a Jute bag manufacturer. It also includes a landlord and his tenant.

Analysing the data presents interesting trends.

- Of these convictions, 45 people have been sent to jail – a majority of them – 38 - for Rigorous Imprisonment (RI) and 7 for Simple Imprisonment (SI), for terms varying between 6 months and 3 years. The rest were awarded other forms of punishments.
- The quantum of penalties (Civil Liability + Fines) ranges between Rs 5000 to over Rs 1 crore for a residence for domestic power theft.

Delhi's power demand reaches 5925 MW, highest ever

- Delhiites enjoy highest per capita power consumption of 1651 units per annum, which is double the national average.
- Delhi's power demand has more than doubled since 2002
- On July 15, Delhi's power demand reached an all-time high of 5925 MW.

At 5925 MW, Delhi's power demand is:

- Almost thrice that of Kolkata - (Around 2100 MW)
- Almost twice that of Mumbai - (Around 3400 MW)
- Nearly two and a half times, the power the seven North Eastern States draw together (around 2500 MW)
- Almost one and a half times the peak power demand of Orissa (around 3990 MW)
- Over two and a half times, the peak power demand of Bihar (2750 MW)

Avoid using power guzzling equipments between 2 pm to 4 pm and 9 pm till Midnight
You are requested to have your electricity meter shifted outside your house at a common and an easily accessible place. Call 399 99 808 and press 3 for registering your meter shifting request.
