To the Members of BSES Yamuna Power Limited

## Report on the Audit of the 3rd AS Financial Statements

## Definition

We have audited the accompanying Ind AS financial statements of JS&ES Yamuna Power Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the Ind AS financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid audited AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act, of the state of affairs of the Company as at March 31, 2020, its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

### Basis for $\mathcal{D}_n$

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

### Emphasis of Mattan

We draw attention to the following matters in the notes to the aud AS financial statements:

1. Note 16 to the accompanying Ind AS Financial statements with regard to Delhi Electricity Regulatory Commission ("DERC") Tariff Order received by the Company wherein DERC has tried to reverse gap up to March 31, 2014 vide its Tariff Order dated September 29, 2015 with certain disallowances. The Company has preferred an appeal before Honorable Appellate Tribunal for Electricity ("APTEL") against such disallowances. Based on a legal opinion, the impact of these disallowances, which are subject matter of the appeal, has not been considered in the carrying value of Regulatory Deferral Account Balance as at March 31, 2020 in the accompanying Ind AS Financial statements.

2. Note 53 to the accompanying Ind AS financial statements with regard to outstanding balances payable to various electricity generating companies and timely recovery of Accumulated Regulatory Deferral Account Balance, for which matter is pending before Honorable Supreme Court;
3. Note 54 to the accompanying Ind AS financial statements with regard to audit conducted by Comptroller and Auditor General of India (CAG). The said matter is pending before the Honorable Supreme Court; and
4. Note 61 to the accompanying Ind AS financial statements which explains the management's evaluation of the financial impact due to lockdown and other restrictions on account of COVID-19 pandemic situation. The assessment of the impact in the subsequent period is dependent upon circumstances as they evolve.

### Other Information

It, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these audited financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally

accepted in India, including Ind AS prescribed under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Ind AS financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(1)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required

to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Other Matter

We could not observe the cash count and physical verification of inventory conducted by the Management at the year end, as it was not practically possible due to lockdown conditions and therefore, we have performed alternative procedures and relied on internal controls in respect of existence of cash and inventory at the year end.

#### Report on Other Legal and Regulatory Requirements

- (1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- (2) As required by section 143(3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c. The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account;
  - d. In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS prescribed under section 131 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended;
  - e. The matters described in paragraph (1) and (2) under the Emphasis of Matter section above, in our opinion, may have an adverse effect on the cash flows and consequently on the functioning of the Company;

- f. On the basis of the written representations received from the Directors as on March 31, 2020, and taken on record by the Board of Directors, none of the Directors is disqualified as on March 31, 2020 from being appointed as a director in terms of section 164(2) of the Act;
- g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure 2";
- h. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(14) of the Act;

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/ provided by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act;

- i. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements - Refer Note 51 on Contingent Liabilities and Note 52 on other matters under litigation to the Ind AS financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts. Hence, the question of any material foreseeable losses does not arise; and
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

## ANNEXURE I TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section in the Independent Auditor's Report of even date to the members of USES, Yamuna Power Limited on the Ind AS financial statements for the year ended March 31, 2020)

Based on the audit procedures performed for the purpose of reporting a true and fair view on the Ind AS financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, we report that:

- (i) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (ii) The Company has a program of physical verification of fixed assets, other than underground cables and overhead lines due to technical reasons, to cover all the items in a phased manner over a period of three to five years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified by the management during the year and no material discrepancies were noticed on such verification.
- (iii) According to the information and explanations given to us, immovable properties comprising buildings recorded in the books of account of the Company were transferred to, and vested in, the Company pursuant to unbundling of Delhi Vidyut Board and in accordance with Delhi Electricity Reform (Transfer Scheme) Rules, 2001 read with the Delhi Electricity Reform Act, 2000. As represented by the Company, no title deeds in respect of these immovable properties were handed over by the Government of the NCT of Delhi to the Company at the time of such unbundling.
- (iv) The inventories have been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable. No material discrepancies were noticed on physical verification carried out during the year.
- (v) The Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the Register maintained under section 189 of the Act. Accordingly, clause 3(ii) of the Order is not applicable to the Company.
- (vi) According to the information and explanations given to us, the Company has not granted any loans, made investments or guarantees and hence reporting paragraph 3(iv) of the Order is not applicable to the Company.
- (vii) In our Opinion, the Company has not accepted any deposits from the public within the provisions of sections 73 to 76 of the Act and the rules framed there under. Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (viii) The maintenance of cost records has been specified by the Central Government under sub-section (1) of section 148 of the Act and rules thereunder. We have broadly reviewed such records and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

(vii)

(a) The Company is regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, employees' state insurance, income tax, goods and services tax (GST), customs duty, cess and any other material statutory dues applicable to it. During the year 2017-18, sales tax, value added tax, service tax and duty of excise subsumed in GST and are accordingly reported under GST.

No undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, GST, customs duty, cess and any other material statutory dues applicable to it were outstanding, at the year end, for a period of more than six months from the date they became payable.

(b) The dues outstanding with respect to, income tax, sales tax, service tax, value added tax, GST, customs duty, excise duty on account of any dispute, are as follows:

| Name of the Statute  | Nature of dues        | Amount of demand Rs (In Crores) | Amount paid Under protest (Rs in Crores) | Period to which the amount relates | Forum where dispute is pending       |
|----------------------|-----------------------|---------------------------------|------------------------------------------|------------------------------------|--------------------------------------|
| Income Tax Act, 1961 | Interest u/s 201(1A)  | 1.00                            | 1.00                                     | Assessment Year 2008-09            | Commissioner of Income Tax (Appeals) |
|                      | Demand u/s 154/143(3) | 0.40                            |                                          | Assessment Year 2009-10            | Commissioner of Income Tax (Appeals) |
|                      | Demand u/s 154/143(3) | 0.18                            |                                          | Assessment Year 2012-13            | Income Tax Appellate Tribunal        |
|                      | Demand u/s 154/143(3) | 0.39                            |                                          | Assessment Year 2013-14            | Commissioner of Income Tax (Appeals) |
|                      | Demand u/s 154/143(3) | 0.50                            |                                          | Assessment Year 2014-15            | Commissioner of Income Tax (Appeals) |
|                      | Demand u/s 154/143(3) | 0.53                            |                                          | Assessment Year 2015-16            | Commissioner of Income Tax (Appeals) |
|                      | Demand u/s 154/143(3) | 5.10                            |                                          | Assessment Year 2016-17            | Commissioner of Income Tax (Appeals) |

(viii) During the year, the Company has not defaulted in repayment of loans or borrowings to financial institutions and banks. The Company has no dues in respect of government and debenture holders.

(ix) The Company did not raise money by way of initial public offer or further public offer (including debt instruments). In our opinion, the term loans were applied for the purposes for which the loans were obtained.

(x) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of fraud by the Company or any fraud on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such instance by the management.

(xi) Managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.

# HARIBHAKTI & CO, LLP

Chartered Accountants

- (iii) In our opinion, the Company is not a Nidhi Company. Therefore, clause 3(xii) of the Order is not applicable to the Company.
- (xii) All transactions entered into by the Company with the related parties are in compliance with sections 177 and 185 of Act, where applicable, and the details have been disclosed in the Ind AS financial statements as required by the applicable accounting standards.
- (xiv) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Therefore, clause 3(xiv) of the Order is not applicable to the Company.
- (xv) The Company has not entered into any significant transactions with directors or persons connected with them during the year and hence provisions of section 192 of the Act are not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

**ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT**

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section) in our Independent Auditor's Report of even date to the members of BSES Yamuna Power Limited on the financial statements for the year ended March 31, 2020]

**Report on the Internal Financial Controls with reference to Financial Statements under clause (j) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to financial statements of BSES Yamuna Power Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements; assessing the risk that a material weakness exists; and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

**Meaning of Internal Financial Controls with reference to Financial Statements**

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2020, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

**BSEB YAMUNA POWER LIMITED**  
**Notes to Financial Statements for the Year Ended March 31, 2020**

**Corporate Information**

**BSEB YAMUNA POWER LIMITED** ("BYPPL" or "The Company") is a private company incorporated in India being registered office at State Room Building, Faridkot, Distt - 150012.

The **Yamuna Electricity Generation Scheme** is a public-private partnership between Yamuna Infrastructure Limited and Government of National Capital Territory of Delhi governed by various international codes like World Bank, ADB, UNFPA etc. The Government of National Capital Territory of Delhi (hereinafter referred to as "GOCT") entered an agreement and transfer of Yamuna Electricity Generation Scheme (YEGS) was signed from July 1, 2003. As part of the privatization programme in favour of BYPL under the provisions of the Delhi Companies Act, 1956, which was its ultimate shareholder. Subsequent to the formation of the Electricity Act, 2003 (hereinafter referred to as "Electricity Act") which amended the provisions of the Electricity Act specified in the Delhi Electricity Reform Act, 2001 (hereinafter referred to as "DERA") (Delhi Act No. 1 of 2001) not inconsistent with the provisions of the Electricity Act (hereinafter referred to as "Act") as it was part of the Scheme referred to in section 155 of the Electricity Act.

The Company is primarily engaged in the business of generation of electricity in Delhi and Gurgaon district in the National Capital Territory. The Company has been granted a license for generation and retail supply of electricity by the Delhi Electricity Regulatory Commission (DERC) in March 2004. The Commission had set a period of 25 years.

Since its inauguration, BYPL has provided a long and sustained supply of power only to the most important utilities in the country. Every period of time, BYPL has been awarded contracts like JICA, World Bank, ADB, etc. which involves an entry to its cashflow with BYPL, which shows that BYPL is a profitable company in Delhi and also India.

These Financial Statements of the Company for the year ended March 31, 2020 will be presented for review to the Board of Directors on April 30, 2020.

**Note 1: Significant Accounting Policies**

The following is a list of the significant accounting policies adopted in the preparation of the Financial Statements of the Company. These policies have been consistently applied to all the years presented, unless otherwise stated.

**(i) Basis of Preparation**

**(i) Statement of Compliance**

The financial statements comply with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 and also to the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 and also to the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013.

Further, the provisions of the Delhi Electricity Reform (Transfer Scheme) Rules, 2003 (hereinafter referred to as "Transfer Scheme") and other related provisions / agreements have also been taken into account while preparing these Financial Statements.

Financial statements have been prepared in accordance with the requirements of the accounting and procedures prescribed by Section 133 of the Companies Act, 2013, applicable to the provisions of the Electricity Act and other applicable provisions and regulations.

All assets disclosed in the Financial Statements are held in the name of the Company and are not subject to any lien or charge in respect of any other liability of the Company.

**(ii) Basis of Measurement**

The financial statements have been prepared under historical cost convention on the accrual basis except for the following:

- Certain Financial Assets and Liabilities (including derivatives) are measured at fair value and
- Defined benefit plans - actuarial measurement method.

**(iii) New standards and interpretations**

Ministry of Corporate Affairs ("MCA") notified new standard or amendments of the existing standards. There is no such notification which would have been applicable from April 1, 2020.

**(iv) Others**

These Financial Statements have been prepared on a going concern basis in accordance with the applicable accounting standards prescribed under the Companies (Indian Accounting Standards) Rules, 2015 read with amendments notified thereunder by the Ministry of Corporate Affairs.

The Company does not have any investment in or control over the other entities. Therefore, the Company does not apply the consolidated financial statements. Accordingly, these financial statements are prepared on standalone basis.

**(v) Current versus Non-Current Classification**

The Current versus Non-Current classification of the Company's assets and liabilities is based on the following classification:

- Asset is classified as current when it is:
  - Expected to be realized or intended to be sold or consumed in normal operating cycle
  - Expected to be realized within twelve months after the reporting period, or
  - Cash or cash equivalent assets intended for being exchanged in order to settle a liability by the end of the reporting period.
- Asset primarily for the purpose of trading

All short-term liabilities are classified as current liabilities.

**A liability is current when:**

- It is expected to be settled in normal operating cycle
- It is due to be settled within twelve months after the reporting period, or
- There is no unambiguous right transfer of the liability to a third party before the reporting period
- It is a liability for the purpose of trading
- It is a liability for the purpose of trading

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**g) Income Tax**

Income tax expense for the year comprises of current tax and deferred tax. Income tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in Other comprehensive income or directly in Equity and Regulatory Assets, in which case it is recognised in Other comprehensive income or directly in Equity and Regulatory Assets, respectively. Year-end adjusted accruals as of April 30, 2019 under Ind AS shall be considered for computation of MAT liability as per section 115B(4) applicable for five years starting from Financial Year 2015-16.

The income tax expense is based on the period in the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax expense is measured on the amounts expected to be paid for the tax authorities using the tax rates enacted or substantively enacted at the end of the reporting period. The Company establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements. Deferred income tax is determined using tax rates that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences, and unused tax losses, only if it is probable that future taxable amounts will be available to utilise these temporary differences and losses. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Deferred tax assets and liabilities are offset after there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and liabilities are offset when the company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

In accordance with the MAT Act, 1987 (MAT) Regulations issued by CBEC from time to time for determination of basic MAT, the deferred tax liability will be considered for MAT determination. The same will be adjusted in future as and when the deferred tax liability is settled.

Ministry of Corporate Affairs (MCA) through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) General Amendment Rules has notified Schedule C in the AG 12 w.e. April 01, 2019. The Company has adopted Appendix C w.e. April 01, 2019 and disclosed the effect of amendments on the previously filed financial statements and current tax liabilities. The Company has revised judgement accordingly without adjusting correction.

The Company will update the amount in the financial statements if facts and circumstances change and result of clarification or action by the authorities.

The Company has also adopted the other amendments in the AG 12 w.e. April 01, 2019 in connection with accounting for issued debentures. There is no impact on financial statements due to this amendment.

**h) Leases**

The Company has adopted the new accounting standard the AG 19 w.e. April 01, 2019 as per Companies (Indian Accounting Standards) Amendment Rules, 2019 (AG 19) issued in AG 19 w.e. April 01, 2019. The AG 19 is a single lease accounting model which covers the spectrum for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. On adoption of AG 19, the nature of business has changed from lease-hold to lease-own and depreciation will be the right of use asset (ROU) and recognised as liability against an lease liability.

The lease is defined by the International Accounting Standard as Department of Power for equipment (AG 19) w.e. April 01, 2019. The Department of Power hereby gives the right to the Company on "right of use asset" in return of periodic lease fee. The lease is defined term contract period by the Company for its own purpose.

A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**As a lessee**

At the commencement date of the lease the Company recognises a lease liability measured at the present value of the lease payments that are not paid at that date. The lease payments included in the measurement of the lease liability consist of the payments for the right to use the underlying assets during the lease term that are not paid at the commencement date plus lease.

The payments included in the measurement of the lease liability include fixed payments (less very lease incentives receivable), variable lease payments that depend on an index or a rate, initially measured using the index or rate at the commencement date, residual value payments, purchase price of a purchase option when the Company is reasonably certain to exercise the purchase option or payments for penalties for terminating the lease, if the lease term reflects the option exercising an option to terminate the lease. GST liability is included in the measurement of the lease liability.

The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determinable. If that rate is not readily determinable, the lease payments are discounted using the incremental borrowing rate.

The Company recognises a right-of-use asset from a lease contract at the commencement date of the lease, which is the date that the underlying asset is made available to use.

The cost of the right-of-use asset comprises the amount of the lease measurement of the lease liability, any initial direct costs incurred and any lease payments made at or before the commencement date of the lease less any lease incentives received. Subsequently, the right-of-use asset is depreciated or written down, accumulated depreciation and accumulated impairment losses, if any, and adjusted for any re-measurement of the lease liability.

The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of the underlying asset.

If short-term leases (lease term not exceeding 12 months) or leases of low-value assets, the Company does not recognise a right-of-use asset.

On transition, the Company has applied the transitional provisions retrospectively with the cumulative effect of initially applying the standard not recognised and measured comparative information. Instead, the cumulative effect of initially applying the standard has been recognised as an adjustment to the opening balance of retained earnings as of April 01, 2019.

The Company has recognised the following impact expense account by the company after applying Ind AS 19:

a) By measuring the asset as an amount equal to the lease liability, measured by the amount of any payments to be made in exchange for using the underlying asset over the lease term.

In every situation where a contract is or contains a lease, accordingly the lessee of the contract in accordance with Ind AS 19 will recognise a right-of-use asset and a lease liability as of April 01, 2019.

**Subsequent**

**Debt Instruments**

Subsequent measurement of debt instruments depends on the Company's business model in managing the assets and the cash flow characteristics of the assets. There are three measurement categories into which the Company classifies its debt instruments:

• **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. If gain or loss on a debt instrument that is subsequently measured at amortized cost arises as part of a trading relationship, recognition in statement of profit and loss will be made at amortization or disposal. Interest income/loss on these assets is recorded in income using the effective interest rate method.

• **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other comprehensive income. Interest income from these financial assets is recorded in other income using the effective interest rate method, as provided in Company's policy on this condition.

• **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss will be part of a trading relationship, is recognized in the statement of profit and loss and presented net of the statement of profit and loss with other gains/losses in the period in which it arises. Interest income from these financial assets is recorded in other income.

**Equity Instruments**

The Company subsequently measures its equity investments at fair value. If the fair value of the equity instrument has fallen to less than 5% of the carrying amount, the Company will measure it at fair value through profit or loss. If the fair value of the equity instrument has risen to more than 5% of the carrying amount, the Company will measure it at fair value through other comprehensive income. If the fair value of the equity instrument has fallen to less than 5% of the carrying amount, the Company will measure it at fair value through profit or loss. If the fair value of the equity instrument has risen to more than 5% of the carrying amount, the Company will measure it at fair value through other comprehensive income.

Changes in fair value of financial assets at fair value through profit or loss are recognized in statement of profit and loss. Movement in other comprehensive income for equity investments measured at FVOCI will be reported separately from other changes in fair value.

**(vi) Impairment of Financial Assets**

The Company assesses at a lower frequency the amount of impairment loss on assets carried at amortized cost and FVOCI. When impairment is identified, the impairment methodology applied depends on whether there has been a significant increase in credit risk.

For assets measured only, the Company applies the simplified approach permitted by the AS-101 "Financial Instruments" which requires expected credit loss allowance to be recognized for initial recognition of an asset. The Company has also used a practical expedient (i.e. provision matrix) in those circumstances as per AS-101.

**(vii) De-recognition of Financial Assets**

A financial asset is derecognized only when:

• The Company has transferred the right to receive cash flows from the financial asset;

• Retains the contractual right to receive the cash flows of the financial asset, but assumes a derivative obligation to deliver cash flows to one or more recipients.

When the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized.

When the entity has not transferred a financial asset but retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. When the Company retains control of the financial asset, the asset is continue to be recognized in the extent of continuing involvement in the financial asset.

**(viii) Financial Liabilities**

**Initial recognition and measurement**

All financial liabilities are recognized initially at fair value and in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include financial debt, payables, loans and borrowings including bank overdrafts.

**Subsequent measurement**

**Financial liabilities at amortized cost**

Financial measurement of financial liabilities are subsequently measured at amortized cost using the effective interest rate (EIR) method. A financial asset is classified as being the account and measure of premium on redemption and loss of cash flows (the cash flows are all negative) of the EIR. The EIR (amortization) is shown in income table in the profit or loss.

**i) Borrowings**

Borrowings are initially measured at fair value net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the statement of profit and loss over the period of the borrowings using the EIR. Fees paid on the initial recognition of a liability are recognised as transaction costs of the loan in the amount that it is probable that some or all of the liability will be drawn down. In this case, the fee is deferred until the loan is repaid. To the extent there is no evidence that it is probable that some or all of the liability will be drawn down, the fee is recognised as a component of financial expense and expensed over the period of the liability to other income.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the statement of profit and loss.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a reference provision of a long-term loan agreement or a condition of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current. If such loan is agreed after the reporting period and before the approval of the financial statements for issue, and is dependent upon the approval of the lender.

If any specific borrowing remains outstanding after the related asset is ready for sale, the related asset or sale, that borrowing becomes part of the entity's working capital (generally short) financing for the period between the sale of the asset.

**ii) Trade and other payables**

Trade payables represent liabilities for goods and services provided to the Company prior to the end of financial year, which are payable. Trade and other payables are presented as current liabilities unless payment is not due within 12 months and the reporting period. They are measured initially at their face value and subsequently measured at amortised cost using the effective interest method.

**Derivatives**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the extinguishment of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

**iii) Fair Value Measurement**

The value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the measurement date. The fair value measurement is based on the assumption that the transaction to sell the asset or transfer the liability takes place under the following conditions:

- in the principal market (or the most advantageous market, if no principal market exists for the asset or liability);
- in the principal market (or the most advantageous market, if no principal market exists for the asset or liability);
- The market is the most advantageous market must be accessible by the Company;
- The fair value of an asset or liability is measured on the basis of assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interests.

When using measurements of a non-financial asset for the measurement of a financial instrument's liability, the company accounts liability is using the asset in its highest and best use or by selling it to another market participant (the asset use the asset in its highest and best use).

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which the value is measured on a regular basis in the financial statements are categorised within the fair value hierarchy according to follows, based on the level of input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are measured in the financial statements at recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-evaluating each transfer of assets or liabilities based on the lowest level input that is significant to the fair value measurement as a whole at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring and non-recurring fair value measurement, based on the nature, characteristics and risks of the financial assets and liabilities measured at fair value.

At each reporting date, the management analyses the movements in the value of assets and liabilities which are measured at fair value and is consistent with the Company's accounting policies. For this analysis, the management uses the most reliable data available to the extent practicable by applying the information in the valuation documentation to estimate and other relevant inputs.

The management also compares the changes in the value of each asset and liability with the amount reported in the financial statements for the period or a reasonable period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the assets or liabilities and the level of the fair value hierarchy as summarised below:

**iv) Derivatives**

Derivatives that are not designated as hedges.

Derivatives including forward contracts are initially recognised at fair value in the time a derivative contract is entered into and are subsequently measured at fair value at the end of each reporting period. The Company does not designate such derivatives as hedges and such contracts are measured at fair value through profit or loss and are included in statement of profit and loss.

**(iii) Embedded derivatives**

An embedded derivative is a component of a hybrid (combined) instrument that has, outside a non-derivative host contract, with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. An embedded derivative differs from or is in the cash flows but otherwise would be required by the contract to be modified according to a variable interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial instrument that the variable is not related to a party to the contract. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required as a result of a change in a financial asset but not the fair value through profit or loss.

Derivatives embedded in a host contract that is an asset within the scope of the AS 109 are not separated. Financial instruments containing derivatives are accounted for as non-derivative assets, determining whether they cash flows are solely payments of principal and interest.

Derivatives embedded in a liability host contract are separated only if the value over its term is based on the fair value of the embedded derivative and is not based on the economic characteristics and risk of the host and are measured at fair value through profit or loss. Embedded derivatives based related to the host contract are not separated.

The Company during the year has not having any derivatives which are not closely related.

**(iv) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet, where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and of the result of default, insolvency or bankruptcy of the Company or the counterparty.

**(v) Property, plant and equipment**

Tangible assets except assets transferred from previous CEOs are stated at cost less accumulated depreciation and impairment losses. If any cost comprises the purchase price, any cost attributable to bringing the assets to its working condition for its intended use and those within accounts of financing and involving the own processing of the self-fair.

Assets transferred from previous CEOs are stated at the fair market value as indicated by the GOEDCO under the transfer scheme. Value assigned is reflected based on individual asset as on the date of the transfer i.e. July 01, 2020 and as per independent valuer's certificate.

Subsequent costs are included in the asset's carrying amount if recognized as a replacement part, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any substituted part must be derecognized if it is replaced when replaced. All other repairs and maintenance are charged to the statement of profit and loss when incurring cost in which they are incurred.

All project related expenditures such as civil works, machinery under erection, transportation and various materials, preliminary expenditures, interest on construction, initial construction of complete, substantial part incurred prior to the date of commercial operation and trial run depending on the nature of the project will be charged to the progress.

An asset's carrying amount is written down to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

**(vi) Intangible Assets**

Intangible assets are created at cost or acquisition less accumulated amortization and impairment losses. If any cost comprises the purchase price and any cost attributable to bringing the assets to its working condition for its intended use. An intangible asset is recognized when it is probable that the future economic benefits attributable to the asset will flow to the company and where its cost can be measured reliably.

Software costs are included in the asset's carrying amount if recognized as an intangible asset. An amortizable intangible asset is amortized over its useful life in a systematic manner. The costs will flow to the Company and the cost of the item can be measured reliably.

**(vii) Depreciation and amortization methods, estimated useful lives and residual value**

In accordance with Part II of Schedule I of the Companies Act 2013, depreciation/amortization of fixed assets are taken according to the method prescribed in the Companies Act 2013. However, in case of assets where no useful life is prescribed in the Companies Act 2013, the useful life and residual value are determined by management and is justified by independent valuer's report. Part II of Schedule I of the Companies Act 2013 has been used with assets where the method for computing depreciation is not prescribed.

Depreciation on refurbished equipment assets which are purchased separately is provided for over the estimated useful life.

Residual value is taken as the rate of 5% of assets based on the Companies Act 2013 regulations to assets for depreciation, where applicable, as applicable.

Depreciation has been computed based on straight line method following the useful life mentioned as below:

| Description of Assets                        | Useful Life of Asset (in Years) |
|----------------------------------------------|---------------------------------|
| I. Building                                  |                                 |
| ai. Buildings & House Rents                  | 10                              |
| ii. Temporary Structures                     | 15                              |
| II. Plant & Machinery                        |                                 |
| ai. Transformers & Switchgears               | 25                              |
| bi. Lightening Arrestors                     | 15                              |
| ci. Antennas                                 | 10                              |
| di. Energy Meter                             | 10                              |
| iii. Distribution Systems                    |                                 |
| ai. Overhead Lines                           | 25                              |
| bi. Underground Cables                       | 25                              |
| II. Furniture & Fittings                     | 10                              |
| IV. Office Equipment                         |                                 |
| ai. Communication Equipment                  | 10                              |
| bi. Office Furniture & Fittings              | 10                              |
| V. Computers &                               |                                 |
| ai. Hardware                                 | 5                               |
| bi. Software, Services & Hardware, Equipment | 5                               |
| VI. Vehicles                                 | 10                              |

\* Useful life of assets is determined based on management's best estimate.

There is no significant difference for initial 12 years with the terms mentioned assets class as follows:-

| Assets Class                                                                         | Rate** for initial 12 years |
|--------------------------------------------------------------------------------------|-----------------------------|
| Transmission equipment including conductors and accessories including cable fittings | 6.25%                       |
| Substation equipment including and accessories including cable fittings              | 6.25%                       |
| Other                                                                                | 15.62%                      |

\*12 years after 12 years when the carrying amount for the assets depreciation value is zero, the carrying amount for the assets

\*\*For Computers Hardware and Computer Software, depreciation is calculated on the basis of the useful life of the assets.

#### Depreciation/amortisation methods, estimated useful lives and residual value

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, change in demand, change in price, the state of the industry and the nature of maintenance programmes required to allow the assets to operate over their useful lives.

The residual values are not more than 10% of the original cost of the assets.

The Company reviews at the end of each reporting period the useful life of property, plant and equipment and residual values based on changes in facts and circumstances and adjusts, if any, the depreciation/amortisation accordingly.

#### ii) Borrowing Costs

General and specific borrowing costs that are directly attributable to the purchase, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

When general borrowings are used for the borrowing, investment or specific borrowing, the amount of borrowing costs that is capitalised is calculated from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

#### iii) Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation. The amount for the provision is the best estimate of the expenditure required to settle the obligation at the reporting date.

When there are a number of similar obligations, the likelihood that an outflow of resources will be required is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow of resources in respect of any one debt instrument or liability is remote.

Provisions are measured at the present value of the expenditure expected to settle the present obligation. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as financial cost.

Other than to settle the obligation, benefits expected to arise from a provision are expected to be recovered from a third party, the provision is recognised as an asset. If it is virtually certain that reimbursement will be received which is sufficient to cover the full cost of the provision, the expense relating to a provision is presented in the statement of profit and loss net of reimbursement. If not, the expense is presented as an expense.

#### iv) Contingent Liabilities and Contingent Assets:

A contingent liability is a possible liability that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is unlikely that an outflow of resources will be required to settle the obligation. However, if the possibility of an outflow of resources arising out of present obligation is remote, it is not a liability and is disclosed as contingent liability.

A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the notes to financial statements. A contingent asset is not recognised in financial statements; however, the same is disclosed whenever there is a strong possibility of an inflow of resources.

#### v) Employee Benefits

##### (i) Short-term obligations

Liabilities for salaries and wages, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

##### (ii) Other long-term employee benefit obligations

###### Employees other than Ex-Gratia DVA Employees

The liability for defined benefit and other long-term employee benefit obligations is calculated using the projected unit credit method. The method is based on the market value of the assets of the plan and the expected future payments to be made to (or for) employees in the future. The liability is measured at the present value of the defined benefit obligation at the reporting date. The liability is measured at the present value of the defined benefit obligation at the reporting date. The liability is measured at the present value of the defined benefit obligation at the reporting date. The liability is measured at the present value of the defined benefit obligation at the reporting date.

The obligations are presented as current liabilities in the balance sheet if the liability is expected to be settled within 12 months after the reporting period. If the liability is not expected to be settled within 12 months after the reporting period, the liability is presented as a non-current liability.

The facilities for investment provided to the SAGWA Veterans Retirement System agree in their respective plans of administration to their respective members as provided in the table of all relevant records and in an agreement of the year end.

The full pay record (salary, commission, bonus, and compensation benefits, split in service and non service years of the Company), is captured in accordance with the AG-11 "Employee Benefits". The salary is provided on the basis of actuals received, due to an independent agency of the AG-11.

This use statement is the present form of expected future payments in the form of interest at various periods by employees up to the end of the reporting period along the indicated time period. The amounts are calculated using the market value at the end of the reporting period that has been determined according to the terms of the related obligation.

### Employees offer their Ownable IVE Employees

The Company reported the following goal-empirical item statements:

- (b) defined contribution plans such as 401(k)s, 408(a) plans, 408(b)(7) plans, 457(b) plans, and 458 plans;

© 2000 Blackwell Science Ltd *Journal of Internal Medicine* 247: 391–397

The liability of direct reinsurance in the financial statements is measured at contract amount, namely, given at the present value of the estimated benefit obligation at the end of the reporting period less the fair value at gain account. The defined benefit obligation is calculated annually by independent actuary using the projected unit credit method. The present value of the defined benefit obligation determined at year end is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that maturities approximating to the terms of the related obligation. The actuarial interest cost is calculated by applying the discount rate to the fair balance of the defined benefit obligation and the fair value of plan assets. The cost is subject to actuarial benefit accounted in the statement of profit and loss. Remeasurement of assets and losses arising from experience adjustments and benefits and losses in actuarial assumptions are recognized in the period in which they occur, directly or through comprehensive income. They are included in retained earnings in the statement of changes in equity and in the financial statements. Changes in the present value of the defined benefit obligation during the year, determined in accordance with independent actuarial valuation, is subject to review by new actuary service cost. The Company continues to a third actuary to be Company's other independent actuary to audit before the Insurance Regulatory and Commission Authority (IRCA) approved Insurance Corporation.

**Note- 7 Critical estimates and judgments**

The preparation of financial statements requires the use of accounting estimates about its selection will always impact the actual result. Management also needs to exercise judgment in applying the Company's accounting policies.

The company provides an overview of the areas that have had a higher degree of judgment or complexity, and it items which are more likely to be material adjustments due to estimates and assumptions varying out to its different view. (Note: slightly) associated. (Detailed information about each of these estimates and assumptions is included in relevant notes together with (Wherever) about the basis of estimates) to any affected the item in the financial statements.

**Recoverable value of fixed assets and liabilities are**

**i. Useful life of property, plant and equipment**

The estimates useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors, (such as the stability of the industry and known technological advances) and the degree of maintenance expenditure required to obtain the expected future cash flows from the asset.

The Company reviews at the end of each reporting period the useful life of property, plant and equipment and changes, if any, are adopted prospectively, if appropriate.

**ii. Recoverable amount of property, plant and equipment**

The recoverable amount of property, plant and equipment is based on management and assumptions regarding its potential fair expected market value and future cash flows. Any changes in these assumptions may have a material impact on the determination of the recoverable amount and could result in impairment.

**iii. Estimation of defined benefit obligation**

Employee benefit obligation are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the interest rate. (The Company) Assumes that its calculations based on its estimates to developments are appropriate and appropriate, however, any changes in these assumptions may have a material impact on the liability calculation.

**iv. Estimation of Deferred tax assets for carry forward losses and current tax expenses**

The Company review carrying amount of deferred tax assets and liabilities at the end of each reporting period. This policy for the same has been explained under note 10(v).

**v. Impairment of Trade Receivables**

The Company review carrying amount of Trade receivables at the end of each reporting period and provide for expected credit loss. This policy for the same is explained in the Note no. 10(v).

**vi. Regulatory Assets**

The Company determines whether asset for the year (i.e. Profit) is actual return over assumed/normal based on the principles laid down under the NRT Regulations and Part Orders issued by DERC. At the end of each accounting period, Company also determine regulatory assets/regulatory liability in respect of each regulatory period as set out as below in Company's accounting policy Note 10(v) and also included in the financial statements as per the same as below in the financial statements.

**vii. Late Payment Surcharge on Power Purchase (LPS)**

The Company has long term power purchase agreement (PPA) with various generators and transmission utilities ("Power seller"). As per CERC/ERC regulations, these Power sellers are liable to charge LPS on delayed payments as per the rate defined in the agreement or regulation. The determination of LPS is dependent upon interpretation of the applicable regulation of CERC/ERC and terms of PPA with Power seller. Significant judgment is made while interpreting the relevant CERC/ERC regulations, terms of PPA and its impact in charging of LPS and associated contingent liability in the financial statements.

**viii. Lease Assets (ROU)**

and KPI is required needed to determine the lease term at the non-cancelable period of a lease acquired with any option of extend or terminate the lease beyond the non-cancelable period or a lease term that is reasonably certain.

In evaluating the lease term, the Company considered factors such as the significant economic incentives/disincentives from the lease term, costs relating to the termination of the lease based on lease period and the requirements of the underlying assets in Company's operations being in or close to the location of the reporting Asset and the availability of suitable alternatives.

The lease term in future periods is reassessed based on decision on the lease period to ensure that the lease term, taking into account potential contingencies. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contracts.

Estimates and judgments are continually reassessed. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

**ix. Estimates uncertainty relating to the global health pandemic (COVID-19)**

In assessing the recoverability of these receivables including related receivables and regulatory assets, the Company has considered internal and external information up to the date of approval of these Financial Statements including audit reports and economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current situation of health economic conditions, the Company expects to recover the carrying amount of these assets. The overall impact of the global health pandemic may however, be different from that estimated as at the date of approval of these Financial Statements. The Company will continue to closely monitor for any material changes to future economic conditions.

The Company is a rate regulated entity. The Retail Supply Tariff (RST) chargeable to consumers by the Company is regulated by Delhi Electricity Regulatory Commission (DERC or Commission). These regulations provides for segregating of costs into controllable and uncontrollable costs. Financial results arising out of the under-performance with respect to the targets specified by the DERC for the "controllable" parameters is to be borne by the licensee.

On May 30, 2007, the DERC notified regulations specifying terms and conditions for determination of tariff for the period 2007 to 2011 (MYT Regulations, 2007). Subsequently, DERC vide its order dated May 16, 2011, extended the MYT Regulations, 2007, and the Control Period for a further period of one year, i.e. upto March 31, 2012. Subsequent to the continuation of First Control Period, to March 31, 2012, DERC issued further MYT regulations vide notification dated January 10, 2012 and specified the terms and conditions for determination of tariff for regulated entities for Second Control Period (FY 2012-13) (MYT Regulations, 2011). Further DERC vide its Tariff Order dated July 13, 2012, notified the "controllable" parameters for the F.Y. 2012-13 to 2014-15. Subsequently, DERC vide its Order dated October 22, 2014 extended the MYT Regulations, 2011 and the Control Period for a further period of one year up to March 31, 2016. DERC on January 31, 2017 notified the DERC (Terms & Conditions for determination of Tariff Regulations, 2017) (MYT Regulations, 2017) wherein it was stated that the performance review and adjustment for FY 2016-17 would be considered in accordance with MYT Regulation, 2017. In terms of MYT Regulations, 2017, DERC on September 01, 2017 issued the DERC (Business Plan) Regulations, 2017 (Business Plan Regulations) which is in force for a period of three years upto FY 2019-20 and provides trajectory for various controllable parameters for the aforesaid period.

**BSES YAMUNA POWER LIMITED****Notes to Financial Statements for the Year Ended March 31, 2020**

The revenue gap/surplus is represented by balance of Regulatory Deferral Account which is based on principle stated in respective MYT Regulations for that period, tariff orders and other applicable laws (except for certain disallowances\*\*). In respect of such revenue peak, appropriate adjustments have been made for the respective years in accordance with Ind AS 114 read with the Guidance Note on Regulatory Assets issued by the ICAI. Further for the current period, tariff run-up has been considered in line with the principles laid down in the Business Plan Regulations.

\*\*DERC has tried up revenue gap for period upto March 31, 2014 vide its Tariff Order dated September 29, 2015 with certain disallowances. The Company has preferred an appeal before Hon'ble Appellate Tribunal for Electricity (APTEL) against the said order, challenging issues that are contrary to statutory regulations, unjustified and arbitrary, DERC's own findings in previous tariff orders and regarding non-implementation of previous APTEL judgments. However, based on the legal opinion taken by the Company, the impact of such disallowances, which are subject matter of appeal, has not been considered in the carrying value of Regulatory Deferral Account Balance as at March 31, 2020.

On same basis and duly supported by the legal opinion, impact of similar disallowances made by DERC while trying up for FY 2014-15, FY 2015-16, FY 2016-17 and FY 2017-18 in the subsequent Tariff Orders dated August 31, 2017, March 26, 2018 and July 31, 2019 have not been considered in the carrying value of Regulatory Deferral Account Balance as at March 31, 2020. The Company has filed an appeal before Hon'ble APTEL against such disallowances.

\* DERC has allowed recovery of 6% surcharge on the applicable tariff since July 13, 2012 towards Accumulated Regulatory Deferral Account Balance and carrying cost. DERC vide its true-up order dated July 25, 2014, September 29, 2015, August 31, 2017, March 26, 2018 and July 31, 2019 has allowed adjustment of such recovery of surcharge only towards principal amount of Regulatory Assets and has separately allowed carrying cost in the Annual Revenue Requirement of the respective years. Accordingly, the same is being recovered from the consumers.

The percentage of existing surcharge towards recovery of accumulated Regulatory Assets is subject to review by DERC in the future tariff orders.

The Company has also taken up the matter of timely recovery of Accumulated Regulatory assets through a writ petition before the Hon'ble Supreme Court. (Refer Note 53)

Accordingly, 6% surcharge of ₹ 378.85 Crores recovered during the current year (March 31, 2019 – ₹ 382.45 Crores) has been adjusted against opening Regulatory Deferral Account Balance.

Regulatory deferral amount debit balances are subject to first lien/priority charge to secure the Company's borrowings referred in Notes on Secured Term Loan from Financial Institution and Banks in the current and previous year (Refer Note 21 & 28).

**Regulatory Risk Management**

Hon'ble Electricity Regulatory Authority (DERC) is the Regulator as per Electricity Act.

**Market Risk**

The Company is in the business of supply of electricity being an essential unit life line for consumers. Therefore no demand risk anticipated. There is regular growth in the numbers of consumers and demand of electricity from existing and new consumers.

**Regulatory Risk**

The Company is operating under regulatory environment governed by DERC. Tariff is subject to Rate Regulated Activities.

Refer Note 1 (d) on Company policy relating to determination of regulatory assets/regulatory liabilities.

The Company's risk for Regulatory Assets is reviewed by the Risk Management Committee supported by regulatory team under process approved by the Board of Directors. The team identifies, evaluates and makes plans to mitigate associated risks in close coordination with the Company's operating units and the same is quarterly submitted to the Board / audit committee for their review.

Regulatory Assets recognized in the financial statement of the company are subject to run up by DERC as per Regulation and disallowances if just assessments pending in courts / authorities.

DERC issued Tariff Order for FY 2017-18 on August 31, 2017 which was applicable from September 01, 2017 to March 31, 2018. On March 26, 2018 DERC issued another Tariff Order for FY 2018-19 which was applicable from April 01, 2018 to July 31, 2019. On July 31, 2019 DERC issued another Tariff Order for FY 2019-20 which is in force from August 1, 2019 and will remain in force till replaced by a subsequent tariff order and/or is amended, renewed or modified in accordance with the provisions of the Electricity Act, 2003 and the Regulations made there under.

**Other Risk**

For explanation on the Other risk management process (Refer Note 48)

**Consumer Security Deposit**

(i) Security deposit is an amount paid by consumer at the time of applying for new connection with the company for supply of power at subsequent in case of non-payment of bills. The security deposit shall be refunded to the consumer only after the termination/disconnection of the agreement/reduction of bill and after adjustment of outstanding dues, if any, within a period as prescribed by DERC from the date of termination.

**BSES YAMUNA POWER LIMITED**
**Notes to Financial Statements for the Year Ended March 31, 2020**

i) The amount of Consumer Security Deposit (CSD) transferred to the Company by virtue of Part II of Schedule E of the Transfer Scheme was ₹ 8.00 Crores. The Transfer Scheme as well as erstwhile Delhi Vidyut Board (DVB) did not furnish the consumer-wise details of the amount transferred to it as CSD. The Company, compiled from the consumer records, the amount of security deposits as on June 30, 2002 which works out to ₹ 15.08 Crores. The Company is of the opinion that its liability towards CSD is limited to ₹ 8.00 Crores as per the Transfer Scheme. Therefore, the liability towards refund of consumer deposits is excess of ₹ 8.00 Crores and interest thereon is not in the account of the Company. The Company had also filed a petition during the year 2004-05 with the Delhi Electricity Regulatory Commission (DERC) to deal with the actual amount of CSD as on date of transfer and the DERC had advised the Government of NCT of Delhi (GoNCTD) to transfer the differential amount of ₹ 70.93 crores as deposits to the Company. The GoNCTD did not abide by the advice and hence the Company has filed a writ petition on March 28, 2009 (W.P.(C) 24172/09) and the case is pending before Hon'ble High Court of Delhi. At the last hearing held on October 24, 2011 the writ was placed in the category of 'Raj' matters and the case shall get listed in due course. Pending outcome of this case and as per the instructions of DERC, the Company has been refunding the security deposits to DVB consumers.

ii) Interest is provided at MCLR (Marginal Cost of Funds Based) as notified by RBI prevailing on the April 01 of the respective year on consumer security deposit received from all consumers as per DERC Supply Code and Performance Standard Regulations, 2017. The MCLR rate as on April 01, 2019 @ 8.55 % (April 01, 2018 @ 8.15%). Accordingly, the Company has booked interest during the year ended March 31, 2020 amounting to ₹ 40.78 Crores (March 31, 2019 - ₹ 25.94 Crores). As mentioned in note (i) above interest on deposits value is excess of ₹ 8 Crores would be recoverable from GoNCTD if the Company's contention is upheld by the Hon'ble High Court.

iii) Pursuant to opinion issued by Expert Advisory Committee (EAC) of Institute of Chartered Accountants of India (ICAI) on January 22, 2019 on classification of CSD, the Company has taken an opinion, and accordingly based on opinion, classified the CSD into current and non-current liability. The comparative figures of previous year has also been reclassified accordingly. (Refer Note 32)

Notwithstanding the requirements of Ind AS 118, Regulatory Deferral Accounts, the entity presents the resulting deferred tax assets (liability) and the related movement in that deferred tax asset (liability) with the related regulatory deferral account balances and movements in those balances, instead of within the presented assets, in accordance with Ind AS 12 Income Taxes. Refer Note 18 for disclosures as per Ind AS 118.

During the year, the Institute of Chartered Accountants of India has issued an Expert Advisory Committee Opinion (EAC opinion) in relation to presentation of 'Deferred tax recoverable from future years'. Based on the evaluation and opinion sought by the Company, no reversal is made determined on the accounting for prior statements.

Minimum Alternate Tax (MAT), paid in accordance with the law, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is accounted as an asset if there is convincing evidence that the company will be liable to pay normal income tax in future. The Company has substantial unutilized lodged due to which it is unlikely that it will be paying income Tax under the normal provisions in the foreseeable future. Accordingly, MAT is not recognised as an asset in the balance sheet as it is not probable that future economic benefits associated with it will flow to the Company.

## Note 40 / Financial Risk Management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risk and credit risk. The Company's senior management has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The key risks and mitigating actions are also placed before the Audit Committee of the Company. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Risk Management Committee of the Company is supported by the Finance team and experts of respective business divisions that provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that interests are protected, measured and managed in accordance with the Company's policies and risk objectives. The activities are designed to:

- protect the Company's financial results and position from financial risk
- maintain market risks within acceptable parameters, while optimising returns, and
- protect the Company's financial investments, while maximising returns.

The Treasury department provides funding for the Company's operations. In addition to guidelines and exposure limits, a system of authorities and extensive independent reporting covers all major areas of Treasury's activity.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk in the financial statements.

| Risk                      | Exposure arising from                                                                                                        | Measurement                      | Management                                                             |

| Market risk—Interest rate | Long-term borrowings at variable rates                                                                                       | Sensitivity analysis             | Rebenchmarking of interest rates.                                      |

The Company's financial risk management is carried out by the treasury department. (Company treasury) It identifies, evaluates financial risks in close consultation with the Company's operating units covering interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

**(A) Credit risk**

Credit risk refers to the risk of default or non-payment by the counter party resulting in financial loss. Credit risk arises from cash and cash equivalents, investments, bank loans, trade receivables, and other receivables. Credit risk is managed at Company level. Credit risk is managed at Company level. Credit risk is managed at Company level.

**Credit risk management**

Credit risk is managed at Company level. Credit risk is managed at Company level. Credit risk is managed at Company level.

The concentration of credit risk is limited since the aggregate total is large and widely dispersed and secured with security deposits. The banks and financial institutions, give right and terms, conditions are accepted.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables. The Company follows simplified approach method wherein it recognises impairment loss allowance based on lifetime Expected Credit Loss (ECL) at reporting date.

Trade Receivables are written off when there is no reasonable expectation of recovery after reasonable effort and exhaustion of recovery efforts with past dues, as per policy of the Company and decision taken by the Company. However, the Company continues to engage in enforcement and recovery activity to attempt to recover the receivables due. While recovery is made, there are recognition in statement of profit and loss.

For trade receivables except for short-term receivables and other receivables, the Company uses the provision matrix method under simplified approach. The provision matrix is based on its historically observed default rates over the expected life of these trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historically observed default rates are updated and changes in the forward-looking estimates are analysed.

For short-term receivables and other receivables, in addition to measuring impairment loss provision under simplified approach, loss model, specific provision is also made for cash (other than with the bank).

For recognition of impairment loss on loans and other financial assets and risk exposures, the Company determines first whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to measuring impairment loss allowance based on 12-month ECL.

| Carrying amount of trade receivables (net of impairment) |  | 251.51             | 45.56              | 14.57                | 10.18                 | 5.19                  | 7.11                  |

In FY 2018-19, the Company had taken the methodology of computation expected credit loss of trade receivable (other than 50000 light unperfected dues and other receivables) based on more extensive newer information, comprehensive analysis and study of ageing slab of the dues with every passing year. These refinements had resulted in decrease in provision by ₹ 23.16 Crores during the year ended March 31, 2019.

Reconciliation of loss allowance provision - Trade receivables

| Reconciliation of loss allowance | Provision matrix method | Short light estimated loss and others | Total   |
|----------------------------------|-------------------------|---------------------------------------|---------|
| Loss allowance on April 1, 2019  | 136.73                  | 29.68                                 | 166.41  |
| Bad Debts written off            | (22.05)                 | (14.79)                               | (36.84) |
| Bad Debts recovered              |                         | 7.80                                  | 7.80    |
| Changes in loss allowance        | (16.52)                 | 2.57                                  | (13.95) |
| Transfer to amount expected of   |                         | 1.10                                  | 1.10    |
| Loss allowance on March 31, 2019 | 98.16                   | 13.16                                 | 111.32  |
| Bad Debts written off            | (5.21)                  |                                       | (5.21)  |
| Change in loss allowance         | 5.39                    |                                       | 5.39    |
| Loss allowance on March 31, 2020 | 98.34                   | 13.16                                 | 111.50  |

Significant estimates and judgements

Measurement of financial assets

The measurement provisions for financial assets disclosed above are based on assumptions about the default and recovery rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's credit history, audited financial statements as well as forward looking estimates at the end of each reporting year.

The company is not subject to any financial instruments for such and other financial assets.

illiquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit lines to meet obligations when due and to avoid any market position. Due to the dynamic nature of the underlying businesses, Company actively monitors liquidity risk by maintaining working capital committed credit lines.

Management monitors using forecasts of the Company's liquidity position, continuing the working capital facilities before maturity and cash equivalents at the time of expected cash flows. The Company's liquidity management policy involves projecting cash flows and comparing the same against which necessary measures are taken, ensuring proper cash flow, ability to meet interest and external regulatory requirements and maintaining debt financing plans.

(i) Financing arrangements

The company had access to the following undrawn borrowing facilities at the end of the reporting year

|                                       | March 31, 2020 | March 31, 2019 |
|---------------------------------------|----------------|----------------|
| Plugging gap                          | 8.1            | 20             |
| (Plugging within one year (100% RFR)) | 4.1            | 14             |

Subject to the continuance of satisfactory credit ratings, the bank loan facilities may be drawn at any time in FY21.

(ii) Maturity of financial liabilities

\* The table below depicts the Company's financial liabilities into current maturity based on their contractual provisions for interest-free periods (interest-free periods). The amounts are given in ₹ Crores.

| Contractual maturities of financial liabilities                   | Carrying Value | within 1 year | * more than 1 year | Total    |
|-------------------------------------------------------------------|----------------|---------------|--------------------|----------|
| March 31, 2020                                                    |                |               |                    |          |

## (C) Market risk

## (i) Foreign currency risk

Foreign exchange risk arises from future commercial transactions and investments denominated in a currency that is not the company's functional currency. As the Company operates in a business that has negligible exposure to foreign currencies, foreign currency transactions.

## Sensitivity

In case of fluctuations in the ₹/US\$ exchange rate, the impact on the Company's financial results is not expected.

## (ii) Cash flow and fair value interest rate risk

The Company's major interest rate risk arises from long-term borrowings with variable rates, which enables the Company to earn the benefit from the change in the market rate. As of March 31, 2020, the Company's borrowings at variable rate were primarily denominated in INR. In case of increase in Bank Rate and consequent increase in the cost of borrowing, the Company's financial results may be affected. The Company's borrowings are covered by interest rate swap.

## Interest rate risk exposure

The exposure of the Company's borrowing to interest rate changes at the end of the reporting year is as follows:

|                          | March 31, 2020  | March 31, 2019  |
|--------------------------|-----------------|-----------------|
| Variable rate borrowings | 1,114.39        | 1,423.00        |
| Fixed rate borrowings    | 1,173.79        | 1,231.78        |
| <b>Total borrowings</b>  | <b>2,288.18</b> | <b>2,654.78</b> |

## Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of change in interest rates.

|                                                        | Impact on profit after tax |                |
|--------------------------------------------------------|----------------------------|----------------|
|                                                        | March 31, 2020             | March 31, 2019 |
| Interest rate – increase by 50 basis points (10 basis) | 14.52                      | 14.27          |
| Interest rate – decrease by 50 basis points (10 basis) | 4.32                       | 4.17           |

\*Including an other variable portfolio

## (iii) Price risk

## (a) Exposure

The Company does not have any investment in equity. Therefore, there is no price risk of the Company to financial statements. There is no Company's exposure to price risk.

## (b) Capital Risk Management

The Company considers the following considerations of balance sheet to manage Capital:

1. Total Equity – Issued equity, retained earnings and other reserves, share capital
2. Working Capital

The Company manages its capital to ensure its ability to continue as a going concern and to ensure returns to its shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of capital structure to meet its strategic and long-term needs. We consider the amount of capital to be managed and change the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets.

The Company's aim is to ensure sufficient growth to ensure self-governance through efficient capital management.

The Company's policy is to maintain a stable and strong capital structure with a focused risk equity ratio to ensure financial stability and market confidence while ensuring the development and growth of its business.

The Company's focus is on keeping strong and healthy capital structure to ensure its long-term financial stability. The Company will continue to monitor and manage its capital structure.

The management monitors the return on capital as well as the level of capital to be maintained.

**Notes:**

a. Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.

b. Fair Value of non current financial assets and liabilities has not been disclosed as there is no significant differences between the carrying value and fair value.

Level 1: It includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments.

\*There are no transfers between any levels during the year.

Anytime you're applying with your existing knowledge or experience etc... it's yours to sell back again! :) So I don't see East California. The listed were being in October 01. I think the Court can not give any aid in making of East California and would turn his request for judgment at whether sufficient evidence to H&EC. Because he had some other cases in the East California and approve them based on the real time in January 01. October 15, 2009.

This study was supported in part by the University of Toronto. We thank Dr. Robert J. G. Brown for his helpful comments on the manuscript.

32. **Contribution under Ind AS 38 "Employee Benefits"**

The Company has provided employee benefits as under:-

- a. Defined contribution plan:
  - (i) Employees Provident Fund
  - (ii) Superannuation Fund
  - (iii) Pension and Leave Salary Contribution

**Regular Employees i.e. other than Employee F&B Employees**

The provision based Pension/Family Pension Contribution for "regular" employees is determined with the Regional Provident Fund Commissioner. The Superannuation Fund contribution for "regular" employees is deposited with the Trustees of the "BSES Yamuna Power Ltd Employees Superannuation Scheme" which is recognised by the Income Tax Authorities. Contribution to National Pension System (NPS) is videotrans for "regular" employees and the same is deposited with NPS Standard Life Insurance.

**Employee F&B Employees**

Pension/Leave Salary and Leave Salary Contribution applicable to employee F&B employees is provided to the Employee F&B 2000 Fund as per NPS rules.

The following table sets out the following amounts in the Statement of Profit and Loss for the year ended March 31:

| S.No. | Particulars                                    | March 31, 2020 | March 31, 2019 |
|-------|------------------------------------------------|----------------|----------------|
| a.    | Contribution to Provident Fund                 | 1.22           | 1.19           |
| b.    | Contribution to Employees' Superannuation Fund | 4.58           | 4.19           |
| c.    | Contribution to Pension, NPS and Leave Salary  | 29.87          | 10.84          |
|       | <b>Total</b>                                   | <b>35.67</b>   | <b>16.22</b>   |

**d. Defined benefit plan**

- (i) Gratuity
- (ii) Leave encashment

Gratuity is payable to eligible employees as per the Company's liability and amount is calculated on the basis of the Payment of Gratuity Act, 1947. The Company makes contribution to a fund (BSES Yamuna Power Limited Employees Group Gratuity Assurance Scheme) which is recognised as Income Tax deductible. The Trust has taken a group policy with NPS Prudential Life Insurance Ltd (SEI), SEI Life Insurance Company Ltd. (SEI) Allianz India Ltd. Life Insurance, NPS Standard Life Insurance and National Pension System (NPS) to meet its obligation to pay gratuity.

Gratuity is payable to eligible employees who have accumulated leave. During the accounting period, no payment is made for the Company's plan.

Liability with respect to the gratuity, leave encashment and bonus which is determined based on an actuarial valuation done by an independent actuary at the end of the year and any difference between the first amount and the actuarial valuation is charged to Statement of Profit and Loss.

Actuarial gain and losses comprise experience adjustments and fluctuations in actuarial assumptions, and are recognised immediately in the Statement of Profit and Loss as other income or expense.

Principal actuarial assumption at the balance sheet date:

| c.    | Expected rate of return on Plan Assets (per annum) | 6.25%                | 5.75%                |
| d.    | Retirement age                                     | 58 - 60 years        |                      |
| e.    | Mortality Table                                    | ISDA (2010) (M20-15) | ISDA (2010) (M20-15) |
| f.    | Average withdrawal rate                            | Gratuity Rate        | Gratuity Rate        |
| g.    | Up to 20 years                                     | 1%                   | 1%                   |
| h.    | From 21 to 24 years                                | 1%                   | 1%                   |
| i.    | Above 24 years                                     | 5%                   | 5%                   |

The discount rate has been determined at 6.51% to 6.61% p.a. (previous year 7.00% to 7.06% p.a.) which is determined by reference to market yield of the Government bonds on government securities for the remaining life of employees. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market, on long term basis.

**II Changes in the present value of obligation**

| S.NO | Particulars                                                 | Year ended March 31, 2020 |                   | Year ended March 31, 2019 |                   |

**Description of Risk Exposure:**  
valuations are based on certain assumptions, which are subject to nature and vary over time. As such sensitivity is expected to reflect that as follows:-

(i) Salary increases: Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

(ii) Withdrawal Rate: If Plan is funded then, assets, liabilities, investment & actual income/loss, lower or lower than the discount rate assumed in the last valuation, can impact the liability.

(iii) Discount Rate: Reduction in discount rate in subsequent valuations will increase the plan's liability.

(iv) Mortality & Disability: Actual deaths & disability rates proving lower or higher than assumed in the valuation can impact the obligation.

(v) Withdrawals: Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates in subsequent valuations can impact Plan's liability.

1. The following table shows the details of the various items of expenditure incurred by the various departments of the Government of Karnataka for the year 2007-08.

| REVENUE DEPARTMENT                       |              |              |               |               |          |               |                  |                 |                        |                                          |                          |

अधिसूचना

दिल्ली, 3 मार्च, 2017

सं. फा. अति.श्र.आ./श्रम/एमडब्ल्यू/2016/4859.—न्यूनतम मजदूरी अधिनियम, 1948 (1948 का XI) की धारा 5 की उपधारा (2) द्वारा प्रदत्त शक्तियों का प्रयोग करते हुए, भारत सरकार के राज्य मंत्रालय के दिनांक 24 अगस्त, 1950 की अधिसूचना सं. 104—जे तथा गृह मंत्रालय के दिनांक 6 फरवरी, 1967 की अधिसूचना सं. का.आ. 530 तथा इसके लिए अन्य सभी शक्तियां जो उसे समर्थ बनाती हैं और दिनांक 26 जुलाई, 2011 की अधिसूचना सं. एफ 12(1)142/11/एम डब्ल्यू/श्रम/2023-2047 के साथ पढ़े जाने वाली, अधिसूचना का अनुपालन करते हुए राष्ट्रीय राजधानी क्षेत्र दिल्ली के उपराज्यपाल न्यूनतम मजदूरी अधिनियम, 1948 की धारा 5 की उपधारा (1) के अंतर्गत दिनांक 15 सितम्बर, 2016 की अधिसूचना सं. 13(16)/एम डब्ल्यू/1/2008/श्रम/1859 द्वारा गठित न्यूनतम मजदूरी सलाहकार समिति की सिफारिशों पर विचार करने के पश्चात् तथा राष्ट्रीय राजधानी क्षेत्र दिल्ली के दिनांक 25 फरवरी, 2017 के मंत्री मंडल निर्णय संख्या 2466 के तहत राष्ट्रीय राजधानी क्षेत्र दिल्ली में दिनांक 26 जुलाई, 2011 के पूर्ववर्ती अधिसूचना सं. एफ 12(1)142/11/एम डब्ल्यू/श्रम/2023-2047 में उल्लिखित सभी अनुसूची रोजगार में उल्लिखित श्रमिक/कर्मचारियों के वर्ग के लिए न्यूनतम वेतन दर संशोधन करते हैं, अर्थात् —

| रोजगार की अनुसूची  | श्रमिक/कर्मचारियों का संवर्ग         | न्यूनतम मजदूरी दर रुपये में |          |
|--------------------|--------------------------------------|-----------------------------|----------|
|                    |                                      | प्रतिमाह                    | प्रतिदिन |
| सभी अनुसूची रोजगार | अकुशल                                | 13,350 /—                   | 513 /—   |
|                    | अर्धकुशल                             | 14,698 /—                   | 565 /—   |
|                    | कुशल                                 | 16,182 /—                   | 622 /—   |
|                    | लिपिकीय एवं पर्यवेक्षी कर्मचारी वर्ग |                             |          |
|                    | नॉन मैट्रीकूलेट                      | 14,698 /—                   | 565 /—   |
|                    | मैट्रीकूलेट परंतु ग्रैजुएट नहीं      | 16,182 /—                   | 622 /—   |
|                    | ग्रैजुएट और उससे ऊपर                 | 17,604 /—                   | 677 /—   |

सरकारी राजपत्र में अधिसूचना की तिथि से ये दरें लागू होंगी।

**नोट:** 1 वेतन की न्यूनतम दर नियत अखिल भारतीय उपभोक्ता मूल्य सूचकांक शृंखला, 2001 (आधार 2001=100) से लिंक है। महंगाई भत्ता न्यूट्रलाइजेशन के लिए, समायोजन की दर अकुशल के लिए रुपये 1.35 प्रति प्वाइंट, अर्धकुशल के लिये रुपये 1.50 प्रति प्वाइंट कुशल के लिए रुपये 1.65 प्रति प्वाइंट, नॉन मैट्रीक्यूलेट के लिये रुपये 1.50 प्रति प्वाइंट, मैट्रीक्यूलेट परंतु ग्रेजुएट नहीं के लिए रुपये 1.65 प्रति प्वाइंट और ग्रेजुएट एवं उससे उपर के लिए रुपये 1.80 प्रति प्वाइंट है। समायोजन छः माह में होगा, अर्थात् गत वर्ष के जुलाई से दिसंबर तथा चालू वर्ष के जनवरी से जून के लिए औसत सूचकांक नम्बर को लेकर प्रत्येक वर्ष 01 अप्रैल तथा 01 अक्टूबर को।

2. यदि अखिल भारतीय उपभोक्ता मूल्य सूचकांक में कमी होती है तो इसके परिणाम स्वरूप महंगाई भत्ते में कमी होगी, इस स्थिति में विभिन्न संवर्गों के श्रमिक/कर्मचारी के लिए वेतन के लिए अधिसूचित लागू न्यूनतम मजदूरी पर कोई प्रभाव नहीं पड़ेगा।

3. महंगाई भत्ते की राशि यदि भिन्नता (फ्रैक्शन) में है तो इसे अगले उच्चतर रुपये में राउंड ऑफ किया जाएगा।

4. आगे यह भी स्पष्ट किया जाता है कि मजदूरी की न्यूनतम दरों में संशोधन के पश्चात् जो श्रमिक कर्मचारी राज्य बीमा अधिनियम, 1948 तथा कर्मचारी भविष्य निधि एवं विविध प्रावधान अधिनियम, 1952 के अन्तर्गत आते हैं तथा नियोक्ता अंशदान की निर्धारित दरों के अनुसार नियोक्ता ईएसआई तथा पीएफ का अंशदान जमा कराना जारी रखेगा।

राष्ट्रीय राजधानी क्षेत्र दिल्ली के उपराज्यपाल  
के आदेश से तथा उनके नाम पर,

ए. के. सिंह, सचिव (श्रम)

## LABOUR DEPARTMENT

### NOTIFICATION

Delhi, the 3rd March, 2017

**No. F. Addl.LC/Lab/MW/2016/4859.**—In exercise of the powers conferred by sub-section (2) of section 5 of the Minimum Wages Act, 1948 (XI of 1948) read with the Government of India, erstwhile Ministry of States notification No.104-J dated the 24th August, 1950 and Ministry of Home Affairs notification No.S.O.530. dated the 6th February, 1967 and all other powers enabling him in this behalf and in continuation of notification no. F.12 (1)142/11/MW/Lab/ 2023-2047 dated the 26<sup>th</sup> July, 2011, the Lt. Governor of the National Capital Territory of Delhi, after considering the recommendations of the Minimum Wages Advisory Committee constituted vide notification no. 13(16)/MW/1/2008/Lab./1859 dated the 15<sup>th</sup> September, 2016 under sub-section (1) of section 5 of the Minimum Wages Act, 1948 and Cabinet Decision no. 2466 dated the 25<sup>th</sup> February, 2017 of Government of National Capital Territory of Delhi is pleased to revise, the minimum rates of wages for the class of workmen/employees mentioned in all the Schedule employments as mentioned in earlier notification no. F.12 (1)142/11/MW/Lab/ 2023-2047 dated the 26<sup>th</sup> July, 2011, in the National Capital Territory of Delhi, namely:—

| Schedule of Employments  | Category of Workmen/Employees  | Minimum rates of wages in Rupees |         |
|--------------------------|--------------------------------|----------------------------------|---------|
|                          |                                | Per month                        | Per day |
| All Schedule employments | Unskilled                      | 13,350/-                         | 513/-   |
|                          | Semi-skilled                   | 14,698/-                         | 565/-   |
|                          | Skilled                        | 16,182/-                         | 622/-   |
|                          | Clerical and supervisory staff |                                  |         |
|                          | Non Matriculate                | 14,698/-                         | 565/-   |
|                          | Matriculate but not Graduate   | 16,182/-                         | 622/-   |
|                          | Graduate and above             | 17,604/-                         | 677/-   |

These rates shall come into force with effect from the date of notification in the Official Gazette.

**Note:** 1. The minimum rates of wages being fixed are linked with All India Consumer Price Index Series, 2001 (Base 2001=100). For Dearness Allowance neutralization, the rate of adjustment shall be Rs. 1.35 per point for Unskilled, Rs. 1.50 per point for Semi skilled, Rs. 1.65 per point for Skilled, Rs. 1.50 per point for Non matriculates, Rs. 1.65 per point for Matriculates but not Graduate and Rs. 1.80 per point for Graduate and above. Adjustment will be made six monthly, i.e., on 1st April and 1st October each year after taking into account the average index numbers for July to December of the previous year and January to June of the current year respectively.

2. In case there is decline in All India Consumer Price Index, as a result of which dearness allowance apparently decreases, in that case there shall be no impact on notified applicable minimum rates of wages for different category of workmen/employees.

3. Amount of Dearness Allowance in fraction, if any, would be rounded off to the next higher rupee.

4. It is further clarified that after revision in minimum rates of wages, all workmen who are covered under The Employees State Insurance Act, 1948 and Employees Provident Fund & Misc. Provisions Act, 1952 and the employers would continue to deposit employer's contribution towards ESI and PF as per prescribed rates of contribution.

By Order and in the Name of the Lieutenant Governor  
of the National Capital Territory of Delhi,

A. K. SINGH, Secy. (LABOUR)

**ORDER**

(Date of Order: 18.05.2018)

1.    M/s BSES Yamuna Power Limited has submitted an application for implementation of DSM based Energy efficient Air-Conditioner program in UT of Delhi under Demand Side Management programme. The present application of BYPL is being treated as a Petition. The petitioner has sought in principle approval of the Commission for the scheme and allow cost incurred on the scheme to be recovered through ARR.

2.    **Petitioner's Submission:**

The Petitioner through the application has made the following submissions:

- a.    The DSM programme will lower the overall cost of electricity to it's consumers as well to the licensee by economical and efficient use of resources, in accordance with the provisions contained in the Regulation 4 of the Delhi Electricity Regulatory Commission (Demand Side Management) Regulations, 2014.
- b.    A summary of the scheme along with it's Potential Load and Energy Savings with the target count of population have been tabulated below:

| S. No. | Particulars                                           | Unit               | Total       |
|--------|-------------------------------------------------------|--------------------|-------------|
| 1      | Number of AC offered under this Scheme                | Number             | 10000       |
| 2      | Wattage of Non-star rated AC                          | Watt               | 2364        |
| 3      | Wattage of Star rated AC                              | Watt               | 1465        |
| 4      | Power Saving                                          | Watt               | 899         |
| 5      | Hours of Usage                                        | Hrs/Day            | 6           |
| 6      | Operating days per year                               | Days/Year          | 150         |
| 7      | Energy saved per AC per day                           | KWh                | 5.39        |
| 8      | Energy saved per AC per Year                          | KWh                | 809.10      |
| 9      | Energy Demand saved per year                          | Million KWh        | 8.09        |
| 10     | <b>Energy Demand Saved under the Scheme Per Annum</b> | <b>Million KWh</b> | <b>8.09</b> |

|    |                                         |           |             |
|----|-----------------------------------------|-----------|-------------|
| 11 | Distribution Losses @ 11.69%            | MU        | 1.07        |
| 12 | Energy Requirement at periphery         | MU        | 9.16        |
| 13 | Intra State Transmission Losses(@98%)   | MU        | 0.09        |
| 14 | Saving in Energy Requirement per year   | MU        | 9.25        |
| 15 | Inter State Transmission Losses(@1.65%) | MU        | 0.16        |
| 16 | <b>Total Energy Savings (R14+R15)</b>   | <b>MU</b> | <b>9.41</b> |
| 17 | Deemed Demand Reduction                 | MW        | 8.99        |
| 18 | <b>Deemed Avoided Peak Power @70%</b>   | <b>MW</b> | <b>6.29</b> |

Note: Loss figures have been taken from BYPL Tariff Order of Fy 18-19

- c. The petitioner further submits that under this scheme rebate to the various Air Conditioners are as follows:

| Description offered    | No. of AC | Rebate                                                                                                 |
|------------------------|-----------|--------------------------------------------------------------------------------------------------------|
| AC-Split/Window Models | 10000     | a) Rs. 6400 (under buy back option)<br>b) Rs. 3200 (under without buy back)<br>Average rebate Rs. 4800 |

- d. Considering the average subsidy of Rs. 4800/- BYPL would be required Rs. 5.15 Cr. for implementation of the scheme. Below is the break-up of the estimated cost:

| Parameters               | Quantity | Details of Program                                        |             |
|--------------------------|----------|-----------------------------------------------------------|-------------|
| No. of Ac                | 10000    | Savings in unit (MU)                                      | 9.28        |
| MRP of appliance (Rs/Ac) | 30500    | Cost of technology (Rs. Crore)                            | 30.5        |
|                          |          | Utility Rebate amount (Rs. Crore) (1.5 TR AC)             | 4.8         |
|                          |          | Administartion and Maintenance cost of project (in Cr)    | 0.25        |
|                          |          | <b>Estimated Program Expenditure Required (Rs. Crore)</b> | <b>5.15</b> |

- e. The cost incurred on the scheme would be recovered through saving in power purchase cost, Transmission cost & distribution cost. Illustration of the same is as under:

| S. no. | Particulars (Rs Cr)                  | Year 1      | Year 2      | Year 3      | Year 4      | Year 5      |
|--------|--------------------------------------|-------------|-------------|-------------|-------------|-------------|
| 1      | Saving in Power Purchase Cost        | 2.99        | 2.99        | 2.99        | 2.99        | 2.99        |
| 2      | Transmission Charges                 | 2.07        | 2.07        | 2.07        | 2.07        | 2.07        |
| 3      | Distribution Network                 | 0.91        | 0.94        | 0.96        | 1.00        | 1.04        |
| 4      | <b>Total Deemed Benefits (Rs Cr)</b> | <b>5.98</b> | <b>6.00</b> | <b>6.03</b> | <b>6.06</b> | <b>6.10</b> |

- f. The AC manufacturers as being channelized as per the details given below for the 1.5 Ton Window and split AC/Inverter Ac:

| S. no. | Product Description                               | Company Name             |
|--------|---------------------------------------------------|--------------------------|
| 1      | AC 1.5 Ton 5 star-Split/window Models/Inverter AC | Voltas Air Cnditioners   |
| 2      | Ac 1.5 Ton-Split/window Models/Inverter AC        | Godrej Air Conditioners  |
| 3      | Ac 1.5 Ton-Split/window Models/Inverter AC        | Hitachi Air Conditioners |
| 4      | Ac 1.5 Ton-Split/window Models/Inverter AC        | Daikin AC                |
| 5      | Ac 1.5 Ton-Split/window Models/Inverter AC        | Panasonic AC             |

### 3. Commissions Decision:

Considering the calculation of cost benefit analysis for AC replacement scheme based on all the aforesaid assumptions and the cost saving as prorated to the

ratio of energy saved for specified AC, the Commission approves this scheme for implementation of DSM based Energy Efficient Air Conditioner program in UT of Delhi as under:

**i. Buy back arrangement :**

The scheme shall be operated under 100% buy back arrangement so that the inefficient Acs must be taken out of the grid and disposed off in an environmental friendly manner.

**ii. Rebate/Discount rate:**

- a. The rebate of 5 Star ratings of AC based on notification of Bureau of Energy Efficiency (BEE) dated 08.08.2017 shall be computed, as per the following equation:

$$\text{Rebate (in Rs.)} = 5181.34 + 29.50 \times (\text{Savings in MU})$$

- b. The Savings in MU will be computed as follows:

- i. The installed capacity of 5 Star/Inverter Acs compared with 3 star rated AC of power consumption of 2364 Watts;
- ii. Hours of Usage 6 hours/day
- iii. No. of days Usage 150 days/year
- iv. Transmission and Distribution Losses @ 12.77%
- v. Compressor Life (savings in MU computed from i to iv is multiplied with compressor life and the resultant is input in the equation indicated above)

**vi. Expenses in ARR:**

The expenses on account of floating tender, hiring of implementation agency, administrative costs and the rebate cost along with interest thereon are allowed additionally in the Annual Revenue Requirement (ARR) of the petitioner to be recovered under the head of Demand Side Management (DSM) budget or any other head.

**vii. Eligibility of Consumers:**

- a. The consumer should have a valid consumer connection number/CA number.
- b. There shall be no outstanding dues as on date of application.
- c. A maximum number of 3 Acs shall be offered to a consumer.
- d. The scheme shall be applicable on first come first serve basis for the eligible consumers.

**viii. Implementing Agency:**

BYPL shall engage at least two implementing agencies discovered through competitive bidding process. The price to be quoted by the implementing agency in the bid process shall be net of the quoted price

of new AC minus the salvage value of the old AC, which shall be indicated separately as part of the bid. The implementing agency shall be responsible for the safe disposal of old Ac's.

**ix. Maintenance of Records:**

BYPL shall keep all the records related to this scheme separately. BYPL will submit following details related to the implementation of the scheme:

- a. Final price discovered through competitive bidding for the specified Acs;
- b. Actual saving of energy due to implementation of this scheme;
- c. Administrative cost incurred under this scheme; and
- d. Any other record relevant to the scheme.

**x. Proper and Safe Disposal of Old replaced ACs:**

BYPL shall ensure proper and environment friendly disposal of old replaced air-conditioners by the implementation agency to avoid misuse as well as safety hazards. For this purpose, the three leads (phase, neutral and capacitor point) from the sealed compressor tank shall be cut in the presence of the consumer Subsequently, the old ACs shall be stored in the petitioner's warehouse from where the same shall be disposed of as per the applicable laws through an authorized disposal agency. The disposal certificate shall also be issued by such agency.

**xi. Validity of the Scheme:**

The scheme shall be valid for 12 months from the date of issue.

4. In view of the above, the case is disposed of accordingly.

In 1920, a world wearied by the First World War and sickened by the 1918 flu pandemic desperately sought to move past the struggles and tragedies and start to rebuild lives. People were in search of a “return to normalcy,” as Warren G. Harding put it. Today, nearly every country finds itself in a similar position.

More than eight months and 900,000 deaths into the COVID-19 pandemic,<sup>1</sup> people around the world are longing for an end. In our view, there are two important definitions of “end,” each with a separate timeline:

- ***An epidemiological end point when herd immunity is achieved.*** One end point will occur when the proportion of society immune to COVID-19 is sufficient to prevent widespread, ongoing transmission. Many countries are hoping that a vaccine will do the bulk of the work needed to achieve herd immunity. When this end point is reached, the public-health-emergency interventions deployed in 2020 will no longer be needed. While regular revaccinations may be needed, perhaps similar to annual flu shots, the threat of widespread transmission will be gone.
- ***A transition to a form of normalcy.*** A second (and likely, earlier) end point will occur when almost all aspects of social and economic life can resume without fear of ongoing mortality (when a mortality rate is no longer higher than a country’s historical average) or long-term health consequences related to COVID-19. The process will be enabled by tools such as vaccination of the highest-risk populations; rapid, accurate testing; improved therapeutics; and continued strengthening of public-health responses. The next normal won’t look exactly like the old—it might be different in surprising ways, with unexpected contours, and getting there will be gradual—but the transition will enable many familiar scenes, such as air travel, bustling shops, humming factories, full restaurants, and gyms operating at capacity, to resume.

The two ends are related, of course, but not linearly. At the latest, the transition to normal will come when herd immunity is reached. But in regions with strong public-health responses, normalcy can likely come significantly before the epidemiological end of the pandemic.

The timeline to achieve the ends will vary by location. In this article, we’ll explain the criteria that will be key factors in determining when each is reached. In the United States and most other developed economies, the epidemiological end point is most likely to be achieved in the third or fourth quarter of 2021, with the potential to transition to normalcy sooner, possibly in the first or second quarter of 2021. Every day matters. Beyond the impatience that most feel to resume normal life, the longer it takes to remove the constraints on our economies, the greater will be the economic damage.

## The epidemiological end point

Most countries have deferred the hope of achieving herd immunity until the arrival of a vaccine. When herd immunity is reached, ongoing public-health interventions for COVID-19 can stop without fear of resurgence. The timing of the end point will vary by country and will be affected by a number of factors:

- the arrival, efficacy, and adoption of COVID-19 vaccines—the biggest drivers in the timeline to herd immunity<sup>2</sup>
- the level of natural immunity in a population from exposure to COVID-19; in our estimate, between 90 million and 300 million people globally may have natural immunity<sup>3</sup>
- potential cross-immunity from exposure to other coronaviruses<sup>4</sup>
- potential partial immunity conferred by other immunizations, such as the bacille Calmette–Guérin (BCG) vaccine for tuberculosis<sup>5</sup>

<sup>1</sup> Coronavirus Resource Center, Johns Hopkins University & Medicine, September 18, 2020, coronavirus.jhu.edu.

<sup>2</sup> Virus-neutralizing antibodies could also confer immunity but are less likely to be deployed at sufficient scale to achieve herd immunity in large populations.

<sup>3</sup> For calculation and sources, see sidebar, “Key factors affecting the timeline to herd immunity.”

<sup>5</sup> Martha K. Berg et al., “Mandated Bacillus Calmette–Guérin (BCG) vaccination predicts flattened curves for the spread of COVID-19,” *Science Advances*, August 2020, Volume 6, Number 32, advances.sciencemag.org.

- regional differences in the ways that people mix, which will produce different thresholds for herd immunity

Consider the first and most crucial variables: the arrival of vaccines, their efficacy, and their adoption. We see four plausible scenarios for vaccine efficacy and adoption, illustrated in Exhibit 1.<sup>6</sup> Different combinations of those two

factors will drive varying levels of conferred immunity, implying the extent of natural immunity that will be required to reach herd immunity under each scenario. Combinations of efficacy and adoption beyond those shown are possible.

The other variables will also have much to say about the timeline to reach herd immunity (see sidebar, “Key factors affecting the timeline to herd immunity”).

Exhibit 1

**Vaccine efficacy and coverage are both important; vaccination alone may not achieve herd immunity.**

#### COVID-19-immunity scenarios<sup>1</sup>

#### 1 Optimistic

Efficacy is close to that of common childhood vaccinations; coverage is close to 70% (share of survey respondents willing to receive a vaccine ≤3 months after it is available)

#### 2 High coverage

Efficacy meets minimum threshold for approval; coverage is close to that of common childhood immunizations

#### 3 Midpoint

Efficacy is above minimum threshold for approval but less than that of common childhood vaccinations; coverage is similar to that of flu vaccines

#### 4 Pessimistic

Efficacy meets minimum threshold for approval; public hesitance to adopt vaccine similar to healthy adults' adoption of flu vaccines, with relatively low coverage ceilings

<sup>1</sup>COVID-19 herd immunity achieved once total immune population reaches 58%, using basic reproductive number (R0) of 2.4; herd-immunity threshold calculated as  $1 - (1/R0)$ .

Source: US Food and Drug Administration; McKinsey COVID-19 Survey, July 17, 2020

<sup>6</sup>Exhibit 1 assumes a basic reproductive number (R0) of 2.4 and uses a standard formula to arrive at an estimated herd-immunity threshold of 58 percent.

## Key factors affecting the timeline to herd immunity

**Apart from vaccines**, several other factors will shape the path to achieving COVID-19 herd immunity in a given population.

### Natural immunity to SARS-CoV-2

Globally, of the approximately 30 million people known to have COVID-19, more than 900,000 have died.<sup>1</sup> The rest have recovered and have some degree of natural immunity to SARS-CoV-2 (the novel coronavirus), the virus that causes the disease. While there has been at least a few documented cases of reinfection, most experts expect that the majority of those exposed to the virus are immune for some period of time.

It's likely that many more infections haven't been detected. Estimated case-detection rates range from 3:1 to 10:1.<sup>2</sup> That would mean that between around 90 million and 300 million people around the world have some immunity to SARS-CoV-2.

Infection rates vary widely. In some places, such as Mumbai and New York City, sub-population antibody-positivity rates range up to 50 percent.<sup>3</sup> But those are likely to be outliers: in most countries, less than 10 percent (and often less than 5 percent) of populations test positive for antibodies.<sup>4</sup>

### T-cell cross-reactivity to other coronaviruses

Some recent studies suggest that a significant number of people who haven't

contracted COVID-19 have cross-reactivity in specific immune cells (T cells). Most of them gained it from contracting other coronaviruses, which primed their immune systems to react to COVID-19.<sup>5</sup> The degree to which T-cell cross-reactivity actually immunizes individuals hasn't been proven. If T-cell cross-reactivity provides meaningful immunity, it would offer significant progress toward herd immunity. The prevalence of cross-reactive immunity may vary substantially by region.

### Partial immunity because of other immunizations

Studies have shown that countries that require bacille Calmette–Guérin (BCG) vaccinations for tuberculosis correlate with lower rates of COVID-19 infections and related deaths, normalizing for certain key factors (such as epidemic stage, development, rurality, population density, and age structure).<sup>6</sup> Causation hasn't been proven.

### Threshold for achieving herd immunity

The threshold for achieving herd immunity for COVID-19 is the percentage of a population that needs to develop immunity to disease to prevent sustained future transmission. Once the threshold is reached, the whole population is protected. A basic formula for estimating that threshold is one minus the reciprocal of the basic reproductive number.<sup>7</sup>

In practice, a herd-immunity threshold is complicated and varies by setting. The formula relies on several broad assumptions. One is that each member of a population mixes randomly with all other population members. In reality, people mix mostly with others whose patterns of interaction are similar to their own. Subpopulations with fewer interactions have lower thresholds for herd immunity than do those with more interactions. An estimated overall threshold for herd immunity can be lower than it would be if it took into account that subpopulations with fewer interactions might drive down an overall threshold, and that subpopulations with more interactions have disproportionately already been infected.<sup>8</sup>

Several epidemiologists who are building dynamic models of COVID-19 that incorporate the heterogeneity of population mixing are predicting lower thresholds for herd immunity than previously thought. Many models predict thresholds of about 40 to 50 percent. Other epidemiologists have called into question those hopeful estimates and note that policy should be based on conservative estimates of herd-immunity thresholds until better information is available.<sup>9</sup>

<sup>7</sup> The basic reproductive number (R0) is a measure of contagiousness or transmissibility. For COVID-19, it can be generally thought of as the expected number of cases directly generated by a single case in a population in which all people are susceptible. The R0 value for COVID-19 is under debate, with estimates ranging from two to four. For an example of a low-end estimate, see Max Fisher, "R0, the messy metric that may soon shape our lives, explained," *New York Times*, April 23, 2020, [nytimes.com](https://nytimes.com). For an example of a high-end estimate, see Seth Flaxman et al., "Estimating the effects of non-pharmaceutical interventions on COVID-19 in Europe," *Nature*, August 13, 2020, Volume 584, pp. 257–61, [nature.com](https://nature.com).

Based on our reading of the current state of the variables and their likely progress in the coming months, we estimate that the most likely time for the United States to achieve herd immunity is the third or fourth quarter of 2021. As we wrote in July 2020, one or more vaccines may receive US Food and Drug Administration Emergency Use Authorization before the end of 2020 (or early in 2021) and the granting of a Biologics License Application (also known as approval) during the first quarter of 2021.

Vaccine distribution to a sufficient portion of a population to induce herd immunity could take place in as few as six months. That will call for rapid availability of hundreds of millions of doses, functioning vaccine supply chains, and peoples' willingness to be vaccinated during the first half of 2021. We believe that those are all reasonable expectations, based on public statements from vaccine manufacturers and the results of surveys on consumer sentiment about vaccines.<sup>7</sup>

Herd immunity could be reached as soon as the second quarter of 2021 if vaccines are highly effective and launched smoothly or if significant cross-immunity is discovered in a population (Exhibit 2). (For more on the potential for a faster resolution of the COVID-19 crisis in the United States, see "Searching for optimism in the US response to COVID-19," forthcoming on McKinsey.com.) On the other hand, the epidemiological end of the pandemic might not be reached until 2022 or later if the early vaccine candidates have efficacy or safety issues—or if their distribution and adoption are slow. At worst, we see a long-tail possibility that the United States could be still battling COVID-19 into 2023 and beyond if a constellation of factors (such as low efficacy of vaccines and a short duration of natural immunity) align against us.

## Exhibit 2

### The probability of reaching COVID-19 herd immunity in the United States is highest in the third or fourth quarter of 2021 but could shift.

#### Probability of functional end<sup>1</sup> to COVID-19 pandemic in US by quarter (illustrative)

<sup>1</sup>Timeline to functional end is likely to vary somewhat based on geography.  
Source: Expert interviews; press search; McKinsey analysis

<sup>7</sup> Joe Myers, "3 in 4 adults around the world say they would get a COVID-19 vaccine," World Economic Forum, September 1, 2020, weforum.org.

The paths to herd immunity in other high-income countries are likely to be broadly similar to the one in the United States. The timelines will vary based on differences in vaccine access and rollout and in levels of natural immunity—and potentially, in levels of cross-immunity and previous coverage of other vaccines, such as the BCG vaccine. Even as some locations reach herd immunity, pockets of endemic COVID-19 disease are likely to remain around the world, for example in areas affected by war or in communities with persistently low adoption of vaccines. In such places, until herd immunity is reached, COVID-19 might be analogous to measles—not a day-to-day threat to most people, but a persistent risk. If immunity wanes—for example, if booster vaccines are not fully adopted—then COVID-19 could become more widely endemic.

The arrival of herd immunity won't mean a complete end to all public-health interventions. It's possible that regular revaccinations would be required to maintain immunity, and ongoing surveillance for COVID-19 will be required. But herd immunity would mean that the emergency measures currently in place in many countries could be lifted.

The pace at which governments relax public-health measures will be critical. Some of those measures

(such as full lockdowns and restrictions on certain industries) have significant social and economic consequences, and others (such as testing and tracing), while expensive, don't. Many governments are employing packages of measures that aim to minimize the number of COVID-19 cases and excess mortality while maximizing social and economic degrees of freedom.

## The transition to normal

The second end point of the pandemic may be reached earlier than the first. We estimate that the mostly likely time for this to occur is the first or second quarter of 2021 in the United States and other advanced economies. The key factor is diminished mortality.

Society has grown used to tracking the number of COVID-19 infections (the case count). But case counts matter primarily because people are dying from the disease and because those who survive it may suffer long-term health consequences after infection. The latter is an area of scientific uncertainty, but there is concern that some recovered patients will face long-term effects.<sup>8</sup>

### Exhibit 3

## Reduced COVID-19-related mortality might be achieved through many factors simultaneously.

### Factors that could reduce COVID-19 related mortality

|                                                                                                                 |                                                                                                   |                                                                                                                                  |                                                                                                                                                                                     |                                                                                                                 |                                                                                            |

| <b>Immunity through COVID-19 vaccine</b>                                                                        | <b>Cross-immunity</b>                                                                             | <b>Immunity through other vaccines</b>                                                                                           | <b>Decreased rate of transmission</b>                                                                                                                                               | <b>Better treatment</b>                                                                                         | <b>Natural immunity</b>                                                                    |
| Rolling out an effective COVID-19 vaccine in high-risk populations could significantly reduce related mortality | Potential T-cell cross-reactivity immunity of SARS-CoV-2 and other coronaviruses being researched | Potential correlation between BCG <sup>1</sup> vaccination and lower COVID-19 case counts and related mortality being researched | Faster identification of COVID-19 and isolation measures through rapid, accurate testing could reduce related mortality and allow quicker resumption of activities (eg, air travel) | Improved understanding of COVID-19 and advances in its treatment could significantly decrease related mortality | A larger population with COVID-19 immunity through exposure could reduce related mortality |

<sup>1</sup>Bacille Calmette–Guérin (BCG) vaccine is widely used as a prevention strategy against tuberculosis.

<sup>8</sup>“COVID-19 (coronavirus): Long-term effects,” Mayo Clinic, August 18, 2020, [mayoclinic.org](https://www.mayoclinic.org).

Most countries have made significant progress in reducing the numbers of deaths and hospitalizations associated with COVID-19. Some are close to eliminating excess mortality. Those results have generally been achieved through a combination of moderately effective interventions rather than a single “big bang” (Exhibit 3).

A transition to the next normal, in whatever form that takes, will come gradually when people have confidence that they can do what they used to do without endangering themselves or others. Gaining that confidence will require a continuation of the progress made to reduce mortality and complications, as well as further scientific study regarding long-term health consequences for recovered patients. When confidence is restored, people will again fill bars, restaurants, theaters, and sports venues to full capacity; fly overseas (except for the highest-risk populations); and receive routine medical care at levels similar to those seen prior to the pandemic.

The timing of such a transition will depend on the progress toward herd immunity, as previously detailed (since more people with immunity means fewer deaths and long-term health consequences), and on the effectiveness of a country’s public-health response. Transitions will be gradual. They have already begun in some locations and could be well advanced in most countries by the first or second quarter of 2021. Given the interconnectedness of the global economy, country timelines to normalcy are not fully independent of one another.

To achieve that, we will need to see significant progress on the epidemiological end point, including an effective vaccine receiving Emergency Use Authorization approval during the fourth quarter of 2020 or the first quarter of 2021, followed by a smooth rollout and adoption by high-risk populations. Favorable findings on natural and

cross-immunity would help accelerate timelines. Five additional criteria will also contribute to the transition to a form of normalcy—the more of these that are achieved, the faster the milestone is likely to be reached:

- continued improvement by governments in the application of public-health interventions (such as test and trace) that don’t significantly limit economic and social activities
- compliance with public-health measures until we achieve herd immunity
- accurate, widely available, rapid testing that effectively enables specific activities
- continued advancements in therapeutics (including pre- and postexposure prophylactics) for and clinical management of COVID-19, leading to lower infection-fatality ratios—substantial progress has already been made through a combination of effective drugs, such as dexamethasone and remdesivir, and changes in clinical management
- public confidence that there aren’t significant long-term health consequences for those who recover from COVID-19

---

Both the epidemiological and normalcy ends to the COVID-19 pandemic are important. The transition to the next normal will mark an important social and economic milestone, and herd immunity will be a more definitive end to the pandemic. In the United States, while the transition to normal might be accomplished sooner, the epidemiological end point looks most likely to be reached in the second half of 2021. Other advanced economies are probably on similar timetables.

# ANNEXURE 5.1

## IN THE SUPREME COURT OF INDIA

Civil Appeal No. 884 &amp; 980 of 2010

(Along with connected matters)

INDEX

| SLNO. | PARTICULAR                                                                                             | Page no.  |
|-------|--------------------------------------------------------------------------------------------------------|-----------|
| 1.    | Direction of Supreme Court vide order dated 26-03-2014                                                 | 1 - 6     |
| 2.    | ATE direction, dated 11.03.2014 in Appeal no. 266 of 2013 re: - recovery of regulatory assets          | 7 - 28    |
| 3.    | Letter dated 04.04.2014 by the DERC asking for information in the prescribed format from the BRPL/BYPL | 30 - 39   |
| 4.    | Letter dated 14/04/2014 by BRPL furnishing the data etc.                                               | 40 - 84   |
| 5.    | Letter dated 22.04.2014 by the DERC to BRPL pointing out discrepancies in their data.                  | 86 - 91   |
| 6.    | Letter dated 24.04.2014 by the BRPL along with annexure                                                | 92 - 108  |
| 7.    | Analysis by the Commission based on the data supplied and discrepancies thereof for BRPL and BYPL      | 109 - 119 |
| 8.    | Proposed Road Map BRPL /BYPL in tabular form                                                           | 120 - 121 |
| 9.    | Note on the proposed road map BRPL /BYPL                                                               | 122 - 123 |

40  
Proposed Road Map for Recovery of Revenue Gap in tabular form is as follows:

| BRPL   |                 | CARRYING COST RATE |         | 13.37%   | SURCHARGE     |                           | 8% |
|--------|-----------------|--------------------|---------|----------|---------------|---------------------------|----|
| S. No. | Financial Years | Principal          | Revenue | Recovery | Carrying cost | Outstanding at end of FY. |    |
| 1      | FY 2014-15      | 5,206              | 7,555   | 604.40   | 696.04        | 4,602                     |    |
| 2      | FY 2015-16      | 4,602              | 8,688   | 696.06   | 615.23        | 3,907                     |    |
| 3      | FY 2016-17      | 3,907              | 9,991   | 799.32   | 522.30        | 3,107                     |    |
| 4      | FY 2017-18      | 3,107              | 11,490  | 919.22   | 415.44        | 2,188                     |    |
| 5      | FY 2018-19      | 2,188              | 13,214  | 1057.10  | 292.54        | 1,131                     |    |
| 6      | FY 2019-20      | 1,131              | 15,196  | 1215.66  | 151.20        | -85                       |    |

| BYPL  |                 | CARRYING COST RATE |         | 13.52%   | SURCHARGE     |                          | 8% |
|-------|-----------------|--------------------|---------|----------|---------------|--------------------------|----|
| S. No | Financial Years | Principal          | Revenue | Recovery | Carrying cost | Outstanding at end of FY |    |
| 1     | FY 2014-15      | 2,855              | 3,983   | 318.64   | 366.00        | 2,536                    |    |
| 2     | FY 2015-16      | 2,536              | 4,580   | 366.44   | 342.92        | 2,170                    |    |
| 3     | FY 2016-17      | 2,170              | 5,268   | 421.40   | 293.37        | 1,749                    |    |
| 4     | FY 2017-18      | 1,749              | 6,058   | 484.61   | 238.40        | 1,264                    |    |
| 5     | FY 2018-19      | 1,264              | 6,966   | 557.30   | 170.88        | 707                      |    |
| 6     | FY 2019-20      | 707                | 8,011   | 640.90   | 95.53         | 66                       |    |
| 7     | FY 2020-21      | 66                 | 9,213   | 737.03   | 8.88          | -671                     |    |

41

From the above table it is observed that the revenue gap will be recovered in 6-7 years approximately. The assumption taken in the above table is as below:

1. The average growth in ARR has been taken @15%, which is the lowest of the three
  - a. ARR projected in last five years (19%)
  - b. ARR tried up for last five years (16%)
  - c. Revenue projected for the last five years (15%)
2. The recovery through additional surcharge has been kept at the same level (8%) as submitted during the hearing at Hon'ble APTEL
3. The carrying cost has been taken at the provisionally approved rate for FY 2011-12
4. The carrying cost on provisionally approved revenue gap till FY 2011-12 will be part of the ARR from FY 2014-15 onwards
5. The amount of liquidation of revenue gap may vary according to the prevailing condition at the time of each years tariff order

42

**Note on proposed Roadmap for BRPL**

The Commission is proposing liquidation of Revenue Gap schedule as follows:

1. The Commission has approved the ARR for FY 2013-14 after taking into consideration the carrying cost on the provisionally approved revenue gap up to FY 2011-12 in the Tariff Order dated 31.07.2013.
2. The total Aggregate Revenue Requirement (ARR) approved by the Commission for FY 2013-2014 is Rs.6995 Crs.
3. The provisional revenue gap recognized is Rs.5206 Crs. up to FY 2011-12 in the Tariff Order dated 31.07.2013.
4. The revenue available through 8% additional surcharge will generate additional revenue of Rs.563 Crs. during FY 2013-14.
5. Accordingly, if Rs.563 Crs. is available in each year, the Revenue Gap will be liquidated in approximately next 10 years (5206/563) at the ARR projected for FY 2013-14. It is pertinent to mention that ARR for each year is going to increase due to increase in demand / sales, inflation, fuel cost etc. Increase in ARR will result into additional revenue generated through 8% surcharge and liquidation will take place earlier than projected 10 years.
6. Further, it is submitted that CAG Audit of DISCOMs is being conducted and any decrease in the Revenue Gap due to CAG Audit may also impact the liquidation process.
7. The Commission is in the process of finalizing the True-up of capitalization for first MYT Control period FY 2007-08 to FY 2011-12 and at present, the Commission has allowed full capitalization as per audit financial statement. Therefore, there may be a scope for reduction in actual capitalization which leads to reduction in Revenue Gap.

In view of the above, it is submitted that Revenue Gap upto FY 2011-12 will be liquidated through existing 8% additional surcharge in a period of 10 years which may further reduce with the outcome of the events as mentioned in Para 5, 6 & 7 above.

43

Note on proposed Roadmap for BYPL

The Commission is proposing liquidation of Revenue Gap schedule as follows:

1. The Commission has considered the ARR for FY 2013-14 after taking into consideration the carrying cost on the provisionally approved revenue gap up to FY 2011-12 in tariff order dated 31.07.2013. It is likely that full carrying cost will be recovered through ARR from FY 2014-15 onwards.
2. The total Aggregate Revenue Requirement (ARR) approved by the Commission for FY 2013-2014 is Rs. 3688 Crs.
3. The provisional revenue gap recognized is Rs. 2855 Crs. up to FY 2011-12 in the Tariff Order dated 31.07.2013.
4. The revenue available through 8% additional surcharge will generate additional revenue of Rs.297 Crs. during FY 2013-14.
5. Accordingly, if Rs.297 Crs. is available in each year, the Revenue Gap will be liquidated in approximately next 10 years (2855/293) at the ARR projected for FY 2013-14. It is pertinent to mention that ARR for each year is going to increase due to increase in demand / sales, inflation, fuel cost etc. Increase in ARR will result into additional revenue generated through 8% surcharge and liquidation will take place earlier than projected 10 years.
6. Further, it is submitted that CAG Audit of DISCOMs is being conducted and any decrease in the Revenue Gap due to CAG Audit may also impact the liquidation process.
7. The Commission is in the process of finalizing the True-up of capitalization for first MYT Control period FY 2007-08 to FY 2011-12 and at present, the Commission has allowed full capitalization as per audit financial statement. Therefore, there may be a scope for reduction in actual capitalization which leads to reduction in Revenue Gap.

In view of the above, it is submitted that Revenue Gap upto FY 2011-12 will be liquidated through existing 8% additional surcharge in a period of 10 years which may further reduce with the outcome of the events as mentioned in Para 5, 6 & 7 above.
