## Tariff Proposal for FY 2021-22

### Background

- 5.1 Under Section 62 (1) of the 2003 Act, determination of tariff for Electricity Distribution Business/ Retail Tariff is the sole prerogative of the Hon'ble Commission. Therefore, in the treatment of Revenue Gap as proposed by the Petitioner, the Hon'ble Commission has the final say while finalizing tariff for Wheeling of Electricity and Retail Supply.
- 5.2 Despite continuous yearly tariff determination exercises undertaken by the Hon'ble Commission, there remains a huge unrecovered Regulatory Assets which is yet to be realized in terms of recovery through tariffs.
- 5.3 As is evident from the Petitioner's own past experience, the increase in Regulatory Assets has been mainly on account of increase in power purchase expenses. A simple comparison of Power purchase cost projected / allowed by the Hon'ble Commission on a year-to-year basis vis-à-vis the actual power purchase cost incurred by the Petitioner for respective financial years (as approved by this Hon'ble Commission during true-up exercise) shows a consistent trend wherein the projected power purchase cost always fell far short of the actual cost that was incurred by the Petitioner, as shown in the table below:

**Table 5- 1 : Power Purchase Cost-ARR versus Truing-up (Rs. Crore)**

| S. No | Particulars  | Power Purchase Cost |              |              |
|-------|--------------|---------------------|--------------|--------------|
|       |              | ARR                 | True Up      | Deficit      |
| 2     | FY 2008-09   | 1268                | 1282         | -14          |
| 3     | FY 2009-10   | 1471                | 1819         | -348         |
| 4     | FY 2010-11   | 1471                | 2606         | -1135        |
| 5     | FY 2011-12   | 2619                | 3286         | -667         |
| 6     | FY 2012-13   | 2786                | 3482         | -696         |
| 7     | FY 2013-14   | 3039                | 3634         | -595         |
| 1     | FY 2014-15   | 3070                | 3701         | -631         |
| 2     | FY 2015-16   | 3177                | 3083         | 94           |
| 3     | FY 2016-17   | 3177                | 3225         | -48          |
| 4     | FY 2017-18   | 3191                | 3299         | -108         |
| 5     | FY 2018-19   | 3143                | 3283         | -140         |
| 6     | <b>Total</b> | <b>28412</b>        | <b>32700</b> | <b>-4288</b> |

- 5.4 The only exception being FY 2015-16 during which the Petitioner incurred significantly lower Power purchase cost due to late implementation of CERC's Regulations and entire credit being passed to the Petitioner for the interim period during this FY. This however, was an exception as evident from the fact that the

deficit in the Power purchase cost reoccurred from the subsequent FYs and continues till date.

- 5.5 The Petitioner has endeavoured to raise loans to fund the revenue gap on account of increase in power purchase cost and to the extent of Regulatory Asset recognised. The Regulatory Assets are nothing but cost incurred (primarily power purchase cost) in the previous years by the Petitioner as approved by Hon'ble Commission, which is yet to be recovered through tariff. The Petitioner is continuously requesting the Hon'ble Commission to amortise the Regulatory Assets.
- 5.6 Despite the Petitioner's best efforts in raising loans, lenders have been getting increasingly reluctant in extending credit to the Petitioner owing to substantial unamortized Regulatory assets which in turn has a bearing on the credit rating of the Petitioner.
- 5.7 In view of the aforesaid submissions, it becomes all the more necessary that the Revenue Gap is allowed to be amortised by the Hon'ble Commission.

#### Revenue (Gap)/ Surplus of DISCOM upto FY 2019-20

- 5.8 Revenue (Gap)/ Surplus till FY 2019-20 is tabulated below:

**Table 5- 2 : Revenue (Gap)/ Surplus till FY 2019-20 (Rs. Crore)**

| S. No.    | Particulars                                                                                                      | FY 2019-20    |
|-----------|------------------------------------------------------------------------------------------------------------------|---------------|
| <b>A</b>  | <b>RA Creation</b>                                                                                               |               |
| 1         | Opening RA for FY 2019-20                                                                                        | 2,292         |
| 2         | Revenue Gap during FY 2019-20                                                                                    | 609           |
| 3         | Rate of carrying cost                                                                                            | 14%           |
| 4         | Carrying cost accrued during the year                                                                            | 364           |
| 5         | Amortisation through 8% surcharge                                                                                | 377           |
| 6         | Amortisation of carrying cost                                                                                    | 228           |
| 8         | Closing RA for FY 2019-20 on stand-alone basis                                                                   | 2,660         |
| <b>9</b>  | <b>Add:</b>                                                                                                      |               |
| A         | Impact of APTEL Judgements and review petitions (including carrying cost upto FY 20)                             | 11,236        |
| <b>10</b> | <b>Total closing RA for FY 2019-20</b>                                                                           | <b>13,895</b> |
| B         | Add: Impact of pending Appeals before ATE if upheld in favour of Petitioner (including carrying cost upto FY 20) | 5,318         |
| <b>11</b> | <b>Grand Total closing RA for FY 2019-20</b>                                                                     | <b>19,213</b> |

- 5.9 Without prejudice to the Writ Petition (C) No. 105 of 2014 filed before Hon'ble Supreme Court of India, the Petitioner requests the Hon'ble Commission to adjust 8% surcharge so as to ensure recovery within the time-frame specified in the amortization plan submitted before Hon'ble Supreme Court of India.
- 5.10 Further, the Petitioner requests the Hon'ble Commission to allow the carrying cost on Regulatory Assets to be recognized till FY 2019-20 as per directions given by Hon'ble Tribunal in Appeal 153 of 2009 and O.P. 1 of 2011, through a separate surcharge.

#### Revenue at existing tariff for FY 2021-22

- 5.11 The methodology adopted for computation of revenue at existing tariffs for FY 2021-22 has been detailed in Chapter-4 of this Petition.
- 5.12 The revenue estimated on account of sales to various consumer categories during FY 2021-22 has been tabulated below:

**Table 5- 3 : Revenue estimated during FY 2021-22 (Rs. Crore)**

| S.No         | Category                                   | Fixed charges | Energy Charges | Other Charges | Total Revenue |
|--------------|--------------------------------------------|---------------|----------------|---------------|---------------|
| <b>1</b>     | <b>Domestic</b>                            | <b>189</b>    | <b>1,704</b>   | <b>-2</b>     | <b>1,891</b>  |
| <b>1.1</b>   | <b>Domestic</b>                            | <b>174</b>    | <b>1,646</b>   | <b>-</b>      | <b>1,820</b>  |

#### Revenue (Gap)/ Surplus for FY 2021-22 at Existing Tariffs

5.13 The Revenue (Gap)/ Surplus for FY 2021-22 at Existing Tariffs is tabulated below:

**Table 5- 4 : Revenue (Gap)/ Surplus at Existing Tariff for FY 2021-22 (Rs. Crore)**

| S. No | Particulars                                                | FY 2021-22     | Remarks/ Reference |
|-------|------------------------------------------------------------|----------------|--------------------|
| A     | Revenue Requirement for the year (excluding carrying cost) | 5,370          |                    |
| B     | Revenue at existing tariff                                 | 4,222          |                    |
| C     | <b>Revenue (Gap)/ Surplus for the year</b>                 | <b>(1,148)</b> | <b>B-A</b>         |

#### Pension Trust Surcharge

5.14 The Hon'ble Commission revised the pension trust surcharge from 3.8% in its Tariff Order dated 31.07.2019 to 5% vide Tariff Order dated 28.08.2020 and directed the Petitioner to deposit the actual amount collected through the said surcharge directly in to a specified bank account, on a monthly basis. The relevant extract of the directive issued in this regard is extracted below:

*"Tariff Schedule*

*7.The above tariff rates shall be subject to following additional surcharges to be applied only on the basic Fixed Charges and Energy Charges excluding all other charges e.g., LPSC, Arrears, Electricity Tax/Duty, PPAC, load violation surcharge, etc. for the consumers of BRPL, BYPL & TPDDL:*

- 8% towards recovery of accumulated deficit, and,*
- 5% towards recovery of Pension Trust Charges of erstwhile*

*DVB Employees/Pensioners as recommended by GoNCTD.*

*Directives:*

*6.2 The Petitioner shall directly deposit the amount of pension trust surcharge collected from the consumer as per the tariff schedule in the following bank account, of Pension trust*

|   |           |                                          |

| 2 | MICR No.  | 110002103                                |
| 3 | Bank      | State Bank of India                      |
| 4 | IFSC Code | SBIN0004281                              |
| 5 | Name      | DVB-ETBF-2002                            |
| 6 | Branch    | Rajghat Power House,<br>New Delhi-110002 |

..”

- 5.15 The Petitioner has been complying with the above directive of the Hon’ble Commission.

**Tariff Proposal**

- 5.16 The revenue deficit projected by the Petitioner for FY 2021-22 at existing tariff is Rs. 1,148 Crore.

- 5.17 The reasons for such deficit are listed as under:

- Adverse consumer mix which has resulted in a lower distribution margin at the hands of the licensee as compared to its peers;
- High power purchase and transmission cost due to increased costs as anticipated by Gencos & Transcos in their respective petitions before CERC;
- Tariffs being not reflective of their cost of supply, which make big consumer susceptible to open access, adversely impacting remaining low end LT consumers;
- Increase in uncontrollable O&M Expenses due to statutory pay revision of employees.

- 5.18 To address the revenue gap indicated above and to fully meet the tariff requirement of the Petitioner, the Hon’ble Commission is requested to determine a suitable cost reflective tariff.

Carrying cost ought to be allowed as a separate surcharge on revenue instead of allowing in tariff as per requirements of Financial Institutions.<br>2. Trajectory to recover the huge accumulated regulatory gap upto FY 2019-20. |
| D     | Impact of 7 <sup>th</sup> Pay Commission                        | 216                                                                                                                                                            | Requesting DERC to refer our letter no. RA/BYPL/2020-21/200 dated 14.12.2020 in order to allow a suitable surcharge for recovery.                                                                                                                                                                                                                                                                                 |
| E     | Tariff Hike Proposed (%)                                        | Suitable cost reflective tariff.<br>Suitable surcharge for recovery of entire RA along with carrying cost as per the provisions of the National Tariff Policy. |                                                                                                                                                                                                                                                                                                                                                                                                                   |

5.19 The below pie-chart clearly shows that the revenue gap is primarily on account of Power Purchase Cost which is not within the control of the Licensee:

Figure 5-1: Revenue gap bifurcation

**Cost of Service Model**

5.20 As regards ratio of allocation of ARR into Wheeling and Retail Supply, Regulation 32 of DERC Business Plan Regulations, 2019 states as under:

**“32. Ratio of Allocation of ARR into Wheeling & Retail Supply**

*The ratio of allocation of ARR into Wheeling & Retail Supply Business in terms of the Regulation 4(9) (e) of the DERC (Terms and Conditions for determination of Tariff) Regulations, 2017 shall be as follows:*

**Table 17: Retail Business**

| Particulars                      | BRPL | TPDDL | BYPL |
|----------------------------------|------|-------|------|
| Cost of Power Purchase           | 100% | 100%  | 100% |
| Inter-State Transmission Charges | 100% | 100%  | 100% |
| Intra-State Transmission Charges | 100% | 100%  | 100% |
| SLDC fees and charges            | 100% | 100%  | 100% |
| Operation & Maintenance Costs    | 40%  | 38%   | 38%  |
| Depreciation (including AAD)     | 21%  | 23%   | 19%  |
| Return on Capital Employed       | 26%  | 28%   | 28%  |
| Income Tax                       | 26%  | 28%   | 28%  |
| Non Tariff Income                | 85%  | 60%   | 85%  |

**Table 18: Wheeling Business**

| Particulars                   | BRPL | TPDDL | BYPL |
|-------------------------------|------|-------|------|
| Operation & Maintenance Costs | 60%  | 62%   | 62%  |
| Depreciation (including AAD)  | 79%  | 77%   | 81%  |
| Return on Capital Employed    | 74%  | 72%   | 72%  |
| Income Tax                    | 74%  | 72%   | 72%  |
| Non Tariff Income             | 15%  | 40%   | 15%  |

....”

- 5.21 Employing the aforesaid ratios, the Petitioner has bifurcated the ARR into Retail and Wheeling Business as per the Table given below:

**Table 5- 6 : Allocation of ARR into Retail and Wheeling Business**

Amount in Rs. Crore

| S. No. | Particulars                          | Wheeling    | Retail      | Total       |
|--------|--------------------------------------|-------------|-------------|-------------|
| 1      | Cost of Power Procurement            | 0           | 3721        | 3721        |
| 2      | Operation and Maintenance expenses   | 654         | 401         | 1055        |
| 3      | Depreciation                         | 172         | 40          | 212         |
| 4      | Return on Capital Employed           | 327         | 127         | 455         |
| 6      | Less: Non-Tariff Income              | 11          | 62          | 73          |
| 7      | <b>Aggregate Revenue Requirement</b> | <b>1143</b> | <b>4227</b> | <b>5370</b> |

- 5.22 Accordingly, the Petitioner requests the Hon'ble Commission to consider the aforesaid bifurcation.

### Proposal on Tariff Structure

#### Implementation of Regulation-130 and Regulation-131 of DERC Tariff Regulations, 2017:

- 5.23 Regulation-130 to 132 of DERC Tariff Regulations, 2017 states as under:

*"130. The Fixed Charge of the Distribution Licensee shall consist of the following components:*

*(a) Capacity Charges of Generating Stations as approved/adopted by the appropriate Commission;*

*Capacity Charges of Transmission Licensee including Load Dispatch Charges Stations as approved/adopted by the appropriate Commission;*

*Fixed Cost of Distribution Licensee:*

*(i) Return on Capital Employed;*

*(ii) Depreciation; and*

*(iii) Operation and Maintenance expenses.*

*131. The Variable Charge of a Distribution Licensee shall consist of the following components:*

*(a) Energy Charges (Power Purchase Cost excluding Capacity Charges);*

*(b) Trading Margin, if any, ; and*

*(c) Open Access Charges, if any.*

132. The Commission shall design the Tariff Schedule, indicating Tariff for various categories of consumers in the area of the Distribution Licensee, in the relevant Tariff Order in order to enable recovery of ARR.”

As evident from above, the fixed charges ought to include all fixed costs and variable charges ought to include all variable costs. However, there is a considerable difference between the ratio of fixed charges to variable charges based on approved ARR and fixed cost to variable cost based on approved revenue in the last three Tariff Orders is tabulated below:

**Table 5- 7 : Comparison of costs to revenue**

| S.No. | Particulars                              | FY 2018-19                    | FY 2019-20                    | FY 2020-21                    |
|-------|------------------------------------------|-------------------------------|-------------------------------|-------------------------------|
|       |                                          | Tariff Order dated 28.03.2018 | Tariff Order dated 31.07.2019 | Tariff Order dated 28.08.2020 |
| 1     | Fixed cost to variable cost ratio        | 67 :33                        | 61:39                         | 64:36                         |
| 3     | Fixed to variable charges ratio(Revenue) | 26:74                         | 19:81                         | 19:81                         |

Thus, the Petitioner requests the Hon’ble Commission to determine fixed and variable charges in accordance with Regulation-130 and 131 of DERC Tariff Regulations, 2017.

#### **Time bound recovery of Regulatory Assets/ Revenue Gap:**

5.24 The Hon’ble Commission in Tariff Order dated August 28, 2020 has maintained the Tariff for various consumer categories except agriculture and mushroom at same level as was approved in Tariff Order dated July 31, 2019. Further the Hon’ble Commission has brought many measures viz. rebate to consumers, reduction in fixed charges for a specified period in view of COVID-19. However the Petitioner’s liability and duties to serve consumers during COVID-19 has remained as is and the Petitioner was in fact required to be more vigilant and ensure 24 x 7 uninterrupted power supply during such difficult times.

5.25 As regards recovery of Regulatory Assets, Clause-8.2.2 of Tariff Policy 2016 states as under:

*“8.2.2 The facility of a regulatory asset has been adopted by some Regulatory Commissions in the past to limit tariff impact in a particular year. This should be done only as a very rare exception in case of natural calamity or force majeure conditions and subject to the following:*

- Under business as usual conditions, no creation of Regulatory Assets shall be allowed;*
- Recovery of outstanding Regulatory Assets along with carrying cost of*

Regulatory Assets should be time bound and within a period not exceeding seven years. *The State Commission may specify the trajectory for the same.*"

As evident from above, the Regulatory Assets along with carrying cost if created as a very rare exception in case of natural calamity or force majeure conditions, is to be recovered within a period of 7 years.

- 5.26 During 2014, the Hon'ble Commission submitted a liquidation plan for timely amortisation of Regulatory assets before Hon'ble Supreme Court. As per the amortisation plan, the Regulatory Assets recognised till 2014, i.e., Rs. 2855 Crore was to be amortised within a period of 7 years through 8% surcharge and carrying cost to be allowed as part of tariffs (Copy enclosed as **Annexure-6**). However the Hon'ble Commission in latest Tariff Order dated 28.08.2020 has itself recognised Regulatory Assets of Rs. 2292 Crore till FY 2018-19. Also the Regulatory Assets recognised in Tariff Order dated 28.08.2020 does not include the impact of various APTEL Judgments to be implemented by the Hon'ble Commission on which no stay has been granted by the Hon'ble Supreme Court. Further, the Regulatory Assets have come down mainly because of the fact that the Petitioner has actively taken steps to bring down the uncontrollable power purchase costs through re-allocation/ surrender of costly PPAs.
- 5.27 Also the Petitioner vide its letter dated 30.11.2020 has communicated its stand on NTPC-Dadri-I to the Hon'ble Commission. It is relevant to point out that Dadri-I is an obsolete, commercially & economically unviable Plant having high tariff of more than Rs. 6.33 per unit and creates economic burden on account of higher tariff for the residents of NCT of Delhi. In fact, the National Electricity Plan (January 2018) issued by Central Electricity Authority ("CEA") under Section 3(4) of the Electricity Act, 2003 has considered retirement of various generating stations of NTPC during 2022-27 which shall complete the age of 25 years including Dadri-I. Accordingly, the Petitioner has not considered any procurement of power from Dadri-I in projections of FY 2021-22.
- 5.28 Therefore, the 8% Additional Surcharge towards recovery of past accumulated deficit is not sufficient to recover the Regulatory asset in a time bound manner, where the annual revenue realization of the petitioner is much less in comparison to the accumulated gap. The situation has further aggravated during COVID-19 times.
- 5.29 The creation and maintenance of the Regulatory asset for such a long period is against the principles of natural justice to both the petitioner and its consumers. The Petitioner is aggrieved due to the reason that the financial health of the petitioner is adversely affected and the banks are reluctant to disburse any further loans to the petitioner. The consumer of the petitioner is also adversely

affected due to the fact that they would have to bear the impact of carrying cost on annual basis in the tariff.

- 5.30 The Hon'ble Commission is requested to kindly review the present 8% surcharge towards accumulated deficit and approve a revised Surcharge to ensure that the Regulatory asset of the petitioner in terms of Clause-8.2.2 of Tariff Policy and liquidation plan submitted before Hon'ble Supreme Court to be recovered completely by FY 2021-22. Also the directions of Hon'ble APTEL are to be implemented and impact of past claims be recovered in a time bound manner along with the carrying cost.

#### Monthly PPAC:

- 5.31 Clause-5.11 (h) (4) of Tariff Policy, 2016 states as under:

*"Uncontrollable costs should be recovered speedily to ensure that future consumers are not burdened with past costs. Uncontrollable costs would include (but not limited to) fuel costs, costs on account of inflation, taxes and cess, variations in power purchase unit costs including on account of adverse natural events."*

As evident from above, the power purchase costs are required to be recovered speedily.

Also the Hon'ble APTEL in Judgment dated 11.11.2011 (OP1 of 2011) has directed the various State Electricity Regulatory Commissions as under:

*"65. In view of the analysis and discussion made above, we deem it fit to issue the following directions to the State Commissions:*

*...*

*(vi) Fuel and Power Purchase cost is a major expense of the distribution Company which is uncontrollable. **Every State Commission must have in place a mechanism for Fuel and Power Purchase cost in terms of Section 62 (4) of the Act. The Fuel and Power Purchase cost adjustment should preferably be on monthly basis on the lines of the Central Commission's Regulations for the generating companies but in no case exceeding a quarter. Any State Commission which does not already have such formula/mechanism in place must within 6 months of the date of this order must put in place such formula/ mechanism."**(Emphasis added)*

- 5.32 In line with the Tariff Policy 2016 and the Hon'ble APTEL's Judgment dated 11.11.2011, the Petitioner requests the Hon'ble Commission to allow the recovery of uncontrollable power purchase costs on monthly basis.

- 5.33 Currently the Petitioner is charging variations in power purchase costs through existing PPAC mechanism on quarterly basis. Recovery of unrecovered power purchase costs for entire quarter actually considerably increases the PPAC surcharge percentage and is levied in bills of consumers during entire next quarter. Recovery of PPAC on monthly basis will actually allow the Petitioner to recover the power purchase costs quickly through considerably less percentage of surcharge and will also be beneficial for consumers as PPAC back-log won't be created. In any case, the Petitioner won't levy PPAC surcharge more than suo-motu limit as specified in Business Plan Regulations and shall seek approval of the Hon'ble Commission in case the variation is more than the suo-motu limit.
- 5.34 Therefore, existing PPAC mechanism may be implemented on monthly basis instead of quarterly basis.

**Cross subsidy as per Tariff Policy:**

- 5.35 As per Tariff Policy 2016, the appropriate Commission would notify a roadmap such that tariffs are brought within  $\pm 20\%$  of the Average cost of Supply. Clause 8.3 of Tariff policy 2016 is reproduced below:

*"2. For achieving the objective that the tariff progressively reflects the cost of supply of electricity, the Appropriate Commission would notify a roadmap such that tariffs are brought within  $\pm 20\%$  of the average cost of supply. The road map would also have intermediate milestones, based on the approach of a gradual reduction in cross subsidy."*

- 5.36 The Petitioner would like to bring to the kind notice of the Hon'ble Commission that the cross subsidy in the approved tariff is more than norms as mentioned in the Tariff Policy 2016. A comparative table of cross subsidy approved by the Hon'ble Commission in its tariff order from FY 2018-19 to FY 2020-21 is tabulated below:

**Table 5- 8 : Comparison of Cross subsidy approved in respective tariff orders**

| S.No | Category     | Approved in TO Dated 31.07.2017 | Approved in TO Dated 28.03.2018 | Approved in TO Dated 31.07.2019 | Approved in TO Dated 28.08.2020 |
|------|--------------|---------------------------------|---------------------------------|---------------------------------|---------------------------------|
|      |              | FY 2017-18                      | FY 2018-19                      | FY 2019-20                      | FY 2020-21                      |
| 1    | Domestic     | -24%                            | -23%                            | -29%                            | -32%                            |
| 2    | Non Domestic | +45%                            | +48%                            | +63%                            | +69%                            |
| 3    | Industrial   | +31%                            | +27%                            | +36%                            | +44%                            |
| 4    | Agriculture  | -59%                            | -58%                            | -55%                            | -45%                            |

| S.No | Category  | Approved in TO Dated 31.07.2017 | Approved in TO Dated 28.03.2018 | Approved in TO Dated 31.07.2019 | Approved in TO Dated 28.08.2020 |
|------|-----------|---------------------------------|---------------------------------|---------------------------------|---------------------------------|
|      |           | FY 2017-18                      | FY 2018-19                      | FY 2019-20                      | FY 2020-21                      |
|      | Lighting  |                                 |                                 |                                 |                                 |
| 6    | DMRC      | -8%                             | -19%                            |                                 |                                 |
| 7    | DJB       | +27%                            | +7%                             |                                 |                                 |
| 8    | E Vehicle |                                 |                                 | -28%                            | -34%                            |

- 5.37 The issue related to cross subsidy and tariff simplification has also been addressed in agenda item no 4(a) 60th Meeting of Forum of Regulator Dated 23rd June 2017 which mentions that Domestic category may have within itself three sub-categories i.e. Cross subsidizing, Cross Subsidized, and cross subsidy neutral.
- 5.38 It is pertinent to mention that as per cross subsidy approved in Tariff Order dated 28.08.2020 by the Hon'ble Commission during FY 2020-21 within Domestic category is not in line with the 60th meeting of Forum of Regulator.
- 5.39 In view of the above, Hon'ble Commission is requested to kindly address the issue of cross subsidization among all categories by restructuring the existing tariff structure. It is also suggested that common tariff may be adopted across all categories of consumer matching with average cost of supply of the Petitioner.

#### Tariff Simplification:

- 5.40 The Petitioner proposes to simplify the Tariff Slabs and Rationalise the Tariffs for different consumer categories as per the National Tariff Policy, 2016. The relevant extracts of the Policy are reproduced below:

#### ***"8.3 Tariff design: Linkage of tariffs to cost of service***

*It has been widely recognised that rational and economic pricing of electricity can be one of the major tools for energy conservation and sustainable use of ground water resources.*

*In terms of the Section 61(g) of the Act, the Appropriate Commission shall be guided by the objective that the tariff progressively reflects the efficient and prudent cost of supply of electricity.*

*The State Governments can give subsidy to the extent they consider appropriate as per the provisions of section 65 of the Act. Direct subsidy is a better way to support the poorer categories of consumers than the mechanism of cross-subsidizing the tariff across the board. Subsidies should be targeted effectively and in transparent manner. As a substitute of cross subsidies, the State Government has the option of raising resources through*

*mechanism of electricity duty and giving direct subsidies to only needy consumers. This is a better way of targeting subsidies effectively.*

*Accordingly, the following principles would be adopted:*

- 1. Consumers below poverty line who consume below a specified level, as prescribed in the National Electricity Policy may receive a special support through cross subsidy. Tariffs for such designated group of consumers will be at least 50% of the average cost of supply.*
- 2. For achieving the objective that the tariff progressively reflects the cost of supply of electricity, the Appropriate Commission would notify a roadmap such that tariffs are brought within  $\pm 20\%$  of the average cost of supply. The road map would also have intermediate milestones, based on the approach of a gradual reduction in cross subsidy."*

- 5.41 In addition, NITI Aayog also issued a Diagnostic Study of the Power Distribution Sector in April 2019, wherein the issue of Complex Retail Tariff Structure has issued way forward as below:

*"Over time, because of considerable changes in the consumer mix, consumption pattern, and demand-supply situation, there has been substantial addition in the number of categories, sub-categories and slabs. While the introduction of these categories served the intended purpose initially, it has now become difficult for the regulatory commissions to do away with any of them, owing to socio-political reasons. In fact, the Economic Survey for fiscal 2016 noted the following key points regarding electricity tariffs:*

- Complexity of tariff schedules prevents economic actors from responding sufficiently to price signals*
- Price and non-price barriers come in the way of single-nationwide electricity price through OA*
- Existence of separate and multiple tariff categories, sub-categories and slabs create a complexity, which prevents consumers from fully responding to tariffs because of the high cost of processing the price information*

*Currently, the tariffs framed by the SERC for retail consumers are complex with many sub-categories and conditions. This leads to confusion not just at the consumer level but even at the discom level.*

*It is, therefore, recommended that the tariff structures should be reviewed. While carrying out simplification of tariff categories, revenue neutrality needs to be ensured. We may merge/eliminate existing tariff categories, based on:*

- End-use
- Energy consumption
- Socio-economic profile/affordability
- Social factors (rural and urban area differentiation)
- Consumption pattern/load factor
- Voltage
- Efficient energy use

*Based on the above exercise, standard tariff categories need to be defined across all states. Also, guidelines need to be laid out for determination of sub-categories and prescribing limit on the number of slabs under the standard tariff categories. Any tariff standardisation exercise at the national level will require a comprehensive assessment of the impact on revenue of the utilities. The tariff design should reflect the prudent and efficient cost of supply to the consumers while maintaining revenue neutrality. The new tariff structure should adequately recover fixed costs of the distribution utility through demand charges and variable costs through energy charge. Socio-economic development of the utility should be promoted by providing attractive and affordable tariffs to households, agricultural and industrial consumers. “*

- 5.42 Some of the State Regulatory Commissions have started moving from the complicated Tariff Structures to a more simple and compact tariff structures. Commissions like Jharkhand State Electricity Regulatory Commission and Uttarakhand Electricity Regulatory Commission have made efforts towards reduction in slabs as well as clubbing similar categories in progressive manner so that it does not adversely affect the consumers.
- 5.43 Jharkhand State Electricity Commission in its Tariff Orders for FY 2018-19 and FY 2019-20 has completely done away with slabs in any Tariff Categories, making the Tariff Structure simple and have rationalised the Tariff Structure to better meet the Cost of Supply. As in FY 2019-20 all the consumer categories are within +/-10% of the average cost of supply except Irrigation and Agriculture (~19%). In FY 2018-19, the JSERC took the bold step for rationalising the tariff categories/sub-categories and slabs to around 16 from around existing 28 categories/sub-categories/slabs.
- 5.44 Furthermore, JSERC has merged all HT consumers except HT Domestic consumers into a single category and has implemented kVAh based Tariff for all HT consumers and LT Industrial consumers for FY 2019-20. JSERC has also

restructured all consumers having contracted demand less than 5 kW as domestic consumers.

- 5.45 Similar developments have happened in Uttarakhand as well. The Total No. of Consumer Categories have been brought to 7, viz., Domestic, Non-Domestic, Govt. Public Utilities (comprising Street Lights, Public Water Works, etc) Private Tubewells, Industries, Mixed Load and Railway Traction.
- 5.46 UERC has also set the tariff for all the consumer categories within +/-20% of the average cost of supply except PTW consumers. UERC has also implemented kVAh based Tariffs for all consumers having a contracted capacity above 25 kW.
- 5.47 In the light of the above submissions, the Petitioner requests the Hon'ble Commission to explore the possibility of further simplifying the tariff structure of the Petitioner without adversely affecting the interests of the consumers.

#### **Commission to be provided on collection of Pension Trust Surcharge**

- 5.48 Currently, the Petitioner is earning the commission/collection charges @ 3% on amount of Electricity Duty collected by it through the Electricity Bills on behalf of Government. The collection of Electricity Duty is the responsibility of Delhi Municipal Corporation (DMC) under DMC Act. Since the Petitioner is collecting the same on behalf of Government, the Petitioner gets commission of 3% on collection of Electricity Duty.
- 5.49 The basic objective behind such commission is to compensate the Petitioner against the expenses incurred towards collection of Electricity Duty. The Petitioner has to separately account for such collections and has to keep a proper vigilance towards the same. Further the cash collection charges and bank charges incurred towards maintenance of separate account for the same is also borne by the Petitioner. Thus, the Petitioner meets its cost through the commission received from the Government.
- 5.50 Similarly, the Petitioner is also incurring the cost towards collection of Pension Trust Surcharge. The entire collection on account of Pension Trust Surcharge is given to Pension Trust. Thus, the Petitioner requests that a suitable commission preferably 3% may be allowed to the Petitioner out of the collection of Pension Trust Surcharge to meet its associated costs.

#### **GoNCTD Subsidy amount to be passed on the basis of Direct Benefit Transfer (DBT):**

- 5.51 The GoNCTD subsidy is given to the Domestic consumers including CGHS, Lawyer's Chambers and 1984 Sikh Riots Victims, Agricultural consumers, etc. Currently, the Subsidy amount is been discounted in the electricity bills of the consumers. In this regard, Hon'ble Commission is requested to kindly allow the payment of subsidy

amount through direct benefit transfer as done in several schemes of Government of India such as payment of subsidy for LPG Gas cylinder. In this way consumer, would feel a sense of responsibility in usage of electricity as consumer have to pay the full electricity bills initially and the subsidy amount to such consumer would be passed through direct benefit transfer.

**Exclusion of dishonest consumers for GoNCTD Subsidy:**

- 5.52 Subsidy should be given to the honest consumers so that the dishonest consumers are encouraged in making timely payment of electricity bills and/ or avoid in indulging in activities like theft & unauthorized use of electricity etc. Hence, Petitioner requests the Hon'ble Commission to kindly allow for payment of subsidy only to those consumers whose electricity bills are clear upto the previous billing cycle. Further, it is also requested to approve, a subsidy lock on those consumers where a case of theft/ unauthorized use of electricity has been booked. The subsidy lock would be removed after one year of clearance of the full enforcement dues.

**Waiving of the processing fee on account of digital payment:**

- 5.53 The Digital India programme is the flagship program of Government of India with a vision to transform India into digitally empowered society and knowledge economy. Petitioner had also taken several initiatives to become digital by all means and contribute towards the national goal. One of the major key factors for contributing towards the Digital India Program is to adopt and promote the digital payment modes. Digital payment modes not only gives the convenience in bill payment 24x7, from the comfort of home or on the go, but it also results in monetary savings to consumers in their travelling cost and also saves the precious time of the consumers. Many of the Petitioner's associated business partners like paytm, mobikwik, phonepay etc keep on sponsoring incentive schemes for promotion of digital payments thorough their platform. The Hon'ble Commission had also restricted the cash payment of electricity bills to Rs 4,000/- for promoting digital payment.
- 5.54 In view of promotion of Digital payments, Petitioner request the Hon'ble Commission to kindly waive off the processing fee charged by the Bank/ Gateway and allow the same as a pass through in the ARR of the Petitioner.

**Levy of Disconnection penalty on account of non-payment of dues by defaulting consumers:**

- 5.55 The Hon'ble Commission had empowered the DISCOMs under Regulation 50 of the DERC (Supply Code & Performance Standards) Regulations, 2017 to disconnect the supply in case of default in payment by the consumer. It is submitted that considerable manpower and cost is being deployed by the

Petitioner to disconnect the supply of the defaulting consumers. There are instances that some consumers are continuous defaulters and licensee has to disconnect such consumers more than one times in a year.

- 5.56 The Hon'ble Commission is requested to kindly approve the disconnection penalty of 2% of defaulted amount to be recovered from the defaulting consumers, so that the consumers may also feel the sense of responsibility in making timely payment of their electricity dues so that disconnection can be avoided.

#### Tariff of Electric Vehicle:

- 5.57 Currently the Tariff of electric vehicle is much lower than the average cost of supply and other tariff categories are cross subsidizing this lower tariff of electric vehicle. It is requested that the tariff for charging stations for electric vehicle may be approved equivalent to average cost of supply of the Petitioner. For any new category, the cross subsidy should not be provided and its tariff should be fixed equivalent to Average Cost of Supply as per the provisions of National Tariff Policy. Further, Time of day tariff is also required to be approved on the charging station for Electric vehicle category as their business model is suitable for shifting the electric load in the off peak time slots. This would help the DISCOM's Load curve. It is also proposed to approve dynamic pricing in the tariff for maintaining the grid security in low/ high demand time.

#### Expected Revenue with tariff revision proposed:

- 5.58 The expected revenue from existing tariff and revised revenue as per proposal is tabulated below:

**Table 5- 9 : Expected revenue category-wise (Rs./ Unit)**

| S.No         | Category                                  | Fixed charges | Energy Charges | Other Charges | Total Revenue | Hike In tariff                                                                                                                                                         | Revised Revenue |
|--------------|-------------------------------------------|---------------|----------------|---------------|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
|              |                                           | Rs. Cr.       | Rs. Cr.        | Rs. Cr.       | Rs. Cr.       | %                                                                                                                                                                      | Rs. Cr.         |
| <b>1</b>     | <b>Domestic</b>                           | <b>189</b>    | <b>1,704</b>   | <b>-2</b>     | <b>1,891</b>  | To meet the above revenue gap, the retail tariff ought to be determined in such a manner that there ought not to be any revenue gap during FY 2021-22. (Ref-Para-5.59) |                 |
| <b>1.1</b>   | <b>Domestic</b>                           | <b>174</b>    | <b>1,646</b>   | <b>-</b>      | <b>1,820</b>  |                                                                                                                                                                        |                 |
| <b>1.1.1</b> | <b>Upto 2 KW Connected Load</b>           | <b>35</b>     | <b>906</b>     | <b>-</b>      | <b>941</b>    |                                                                                                                                                                        |                 |
|              | 0-200 Units                               | 20            | 237            | -             | 257           |                                                                                                                                                                        |                 |

| 12                                      | Net metering connections                   | -             | 1              | -             | 1             |                |                 |
| <b>TOTAL Revenue Billed</b>             |                                            | <b>782</b>    | <b>3,474</b>   | <b>-14</b>    | <b>4,243</b>  |                |                 |
| <b>Total Revenue Collection @ 99.5%</b> |                                            | <b>4,222</b>  |                |               |               |                |                 |

5.59 In light of the above discussion, the Petitioner proposes the following cost recovery mechanism:

1. The revenue gap at current tariff is Rs. 1,148 Crore. To meet the above revenue gap, the retail tariff ought to be determined in terms of Regulation-130 and 131 of DERC Tariff Regulations, 2017 (Refer Para-5.23 above) in such a manner that the same should ensure recovery of 100% fixed and variable costs through fixed and variable charges.
2. The Hon'ble Supreme Court and Hon'ble APTEL has time to time in various Judgments (refer para-3B.6 to 3B.10) has observed that the directions of

tribunals are binding even on quasi-judicial body and contempt proceedings may be initiated in case not implemented by them. Some of them are reproduced below:

Supreme Court Judgments:

- a. Contempt proceedings may be initiated against a quasi-judicial body/ lower authority for non-compliance of orders passed by a Superior Court, in the case of *Shri Baradakant Mishra Vs. Bhimsen Dixit*:(1973) 1 SCC 446 or AIR 1972 SC 2466 (Paras 1, 10-12, 15-17).
- b. Power to punish for contempt is necessary for the maintenance of effective legal system. It is exercised to prevent perversion of the course of justice. (Kapildeo Prasad Sah&Ors. Vs. State of Bihar &Ors. (1999) 7 SCC 569 Para 9)
- c. Anjani K. Verma vs. State of Bihar: (2004) 11 SCC 188, Paras 2 & 3
- d. Braj Kishore Thakur vs. Union of India: (1997) 4 SCC 65, Paras 1 & 11
- e. It is well settled that the cardinal principle of interpretation of statute is that courts or tribunals must be held to possess power to execute their own order."General Power of Tribunals to execute their own order. State of Karnataka Vs. Vishwabarathi House Building Coop. Society, (2003) 2 SCC 412 (Paras 57 to 64)

APTEL Judgments:

- a. In recent Judgment pronounced on 5.10.2020 in Appeal 97 of 2020 (KPTCL versus KERC), the Hon'ble APTEL has taken example of the Hon'ble Delhi Commission and has directed KERC to implement the directions of APTEL in earlier Judgments. Thus all APTEL Judgments are to be implemented and a time-bound recovery ought to be provided by the Hon'ble Commission.
  - b. Judgment dated 28.11.2013 (Appeal 14 of 2012) (TPDDL versus DERC) (Para-139) which contains apology of DERC on affidavit stating that it is duty bound to implement the directions of APTEL.
  - c. Judgment dated 27.02.2013 (Appeal 184 of 2011, DTL versus DERC) (Para-27 to 42) where APTEL has commented upon conduct of DERC and advised DERC to implement all Judgments where Civil Appeal is pending and no stay has been granted.
3. Out of the total impact of Rs. 9,100 Crore pending on account of implementation of APTEL Judgments, Rs. 5,482 Crore alone has been linked by the Hon'ble Commission with the ongoing physical verification of assets being conducted by REC (Refer Para-3B.11) as tabulated below:

**Table 5- 10 : Impact of issues linked to physical verification of assets and are pending to be allowed**

| S. No | Particulars                                               | Principal | Interest | Total |
|-------|-----------------------------------------------------------|-----------|----------|-------|
| 1     | EIC Deferment and Physical Verification                   | 1,565     | 3,917    | 5,482 |
| 2     | REL Disallowance                                          |           |          |       |
| 3     | Correction in quantum and funding of Working Capital (WC) |           |          |       |
| 4     | Consideration of repayment of loan                        |           |          |       |
| 5     | True-up of Interest rates of debt                         |           |          |       |
| 6     | Correction of Consumer Contribution                       |           |          |       |
| 6A    | Net-worth computations                                    |           |          |       |

Pending and linked with physical verification of assets for last 10 years

The impact is pending to be allowed for last 10-14 years. The revenue realised by virtue of the assets installed by the Petitioner by incurring the capital expenditure is being considered in each year's ARR. However the cost is pending to be allowed even after 14 years. Same is also against the provisions of tariff design and recovery of Regulatory Assets provided in National Tariff Policy, 2016 which states that the tariff should reflect the efficient and prudent cost of supply of electricity and any outstanding Regulatory Assets ought to be recovered within a period of maximum 7 years.

Deferment of legitimately incurred costs for such long period is not in the interest of future consumers as they will be burdened with the past costs. Clause-5.11 (h) (4) of National Tariff Policy, 2016 states that future consumers should not be burdened with past costs.

Therefore, the same ought to be given effect in the ongoing tariff determination exercise so as to ensure timely recovery of the pending amount.

4. It has to be ensured that the DISCOM should realise return on equity employed in the business which can only happen when all costs including impact of APTEL Judgments are recovered through tariffs.

**Ratio of Average Billing Rate to Average Cost of Supply:**

- 5.60 The ratio of Average Billing Rate (ABR) to Average Cost of Supply (ACoS) at existing tariff and proposed tariff is tabulated below:

**Table 5- 11 : Ratio of ABR to ACoS for FY 2021-22**

| S. No | Category                                      | % of total Sales | Average Cost of Supply* | Average Billing rate at current tariff | Hike in Tariff#                                                                                                                                                                                                         | Average Billing rate as per revised tariff# | % ABR to COS at existing tariff | % ABR to COS at proposed tariff#       |

**Tariff Schedule Proposed:**

5.61 The Tariff Schedule proposed during FY 2021-22 is tabulated below:

**Table 5- 12 : Tariff Schedule proposed for FY 2021-22**

| S. No | Particulars                                                               | UoM     | Amount | Reference  |
|-------|---------------------------------------------------------------------------|---------|--------|------------|
| 1     | ARR estimated for FY 2021-22                                              | Rs. Cr. | 5370   | Table 4.33 |
| 2     | Revenue realization estimated for FY 2021-22                              | Rs. Cr. | 4222   | Table 4.34 |
| 3     | Revenue actually required for FY 2021-22                                  | Rs. Cr. | 5370   | 3=1        |
| 4     | Collection Efficiency                                                     | %       | 99.50% | Para-4.22  |
| 5     | Revenue Billed required to be allowed for FY 2021-22 based on projections | Rs. Cr. | 5397   | 5=3/4      |

5.62 In view of the above the Petitioner proposes the Hon'ble Commission to determine a suitable cost reflective tariff in terms of Regulation-130 and Regulation-131 of DERC Tariff Regulations, 2017 (refer Para-5.23 above), so as to recover the projected Revenue Gap.
